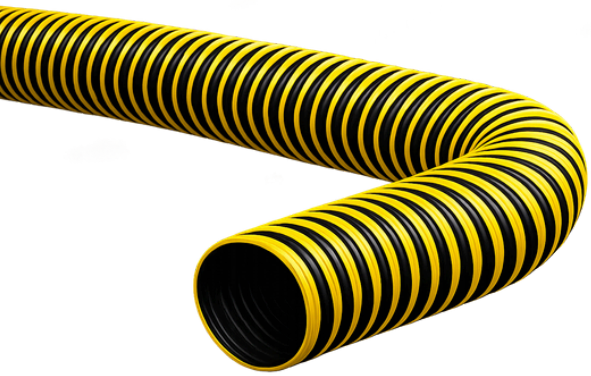
YELLOW EXHAUST HOSE



Yellow Exhaust Hose

The Yellow Exhaust Hose is a high-performance flexible ventilation duct designed for efficient exhaust gas removal and air movement. Manufactured with premium polyester fabric coated with PVC on both sides and reinforced with a steel wire spiral, it ensures durability, flexibility, and resistance to harsh working conditions. Ideal for industrial, automotive, and HVAC applications, this hose offers reliable performance with excellent resistance to oil, chemicals, and abrasion.

Wall	High Density Polyester Weave Coated PVC on Both Sides
Spiral	Reinforced Steel Wire
Exterior Spiral Cover	PVC Strip
Features	• Highly Flexible • Flame Retardant • Could be Compressible and Easy to Carry • Oil, Acid & Alkali Resistant • Very Small Bending Radius • Kink Proof • Polyester Fabric Coated with PVC is Leakage Resistant • Steel Wire Spiral is Abrasion Resistant with Strip Cover • Various Colors are Available
Application	• As Ventilation Duct Ideal for: • Widely Used in these Working Environment such as Airport,Tunnel, Basement, Waste Gas Exhaust Out • Air Conditioning and Ventilation of Fumes, Light Duty Dust Extraction, and Air Movement • As a Flexible Connection between Grilles Diffusers, Fans, and Other Air Movement Units
Temp Range	-20°C to +480°C
