Electronics Policy

Mobile Phones
Students arriving with mobile phones must hand them in to their Mentor at pick-up. Phones will be stored securely and returned to students at drop-off. Any phones not handed in and seen throughout the day will be confiscated, and a consequence will be discussed with both the parent/carer and the student.

Game Devices
Students should not bring Gameboys, PSPs or Nintendo DS devices to Stride sessions unless it has been specifically requested for the purpose of the session.

Music Players / MP3 Players
Children are asked not to bring music players to the sessions as we can provide music through our own speaker system.

Computers and Tablets
Students should not bring any type of computer to Stride sessions unless it has been specifically requested for the purpose of the session.

Stride will not be responsible for lost, damaged, or stolen items. We strongly urge children not to bring objects of significant or irreplaceable value.
