About

Software tools created specifically for hair loss specialists and trichologists. It streamlines client services allowing users to document, manage, and track comprehensive client information.

Hair & Scalp Software Modules

Title: Trichology Management Software
Developer: iBeauty Consulting Group, LLC
Product Branding: Trichology Management Software
Version: 1.0/0315.2025
Category: Hair & Scalp
Industry: Hair Loss (NAICS 8121 Personal Care Services)

System Features:

- Connect internal and external links
- No subscription
- No monthly fees
- Software customization

Software Benefits:

- Streamlined Operations: Simplifies the complexities of running a hair and scalp business.

- Improved Client Experience: Enhances client satisfaction through features like online booking and personalized communication.

- Increased Efficiency: Automates tasks and improves overall efficiency.

- Better Financial Management: Provides tools for tracking revenue, expenses, and profitability.

- Scalability: Some software is designed to scale to fit the needs of single-center, multi-provider, or multi-location businesses.

- Manage daily logistics of running your hair & scalp business
