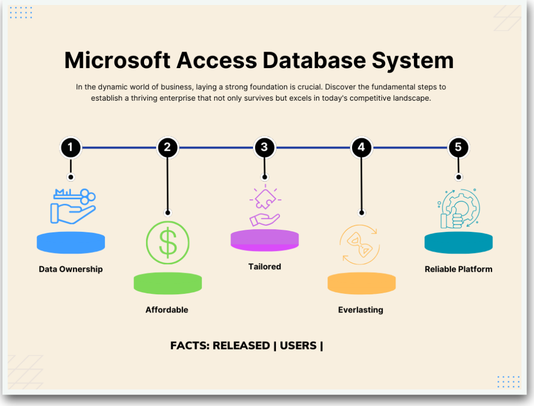
Building Systems for 30 Years.

iBeauty Consulting Group, LLC

Database Systems

Microsoft Access is a database management system (DBMS) that allows users to store, organize, and manage data in a relational database format, offering features like tables, queries, forms, and reports for efficient data handling and analysis.

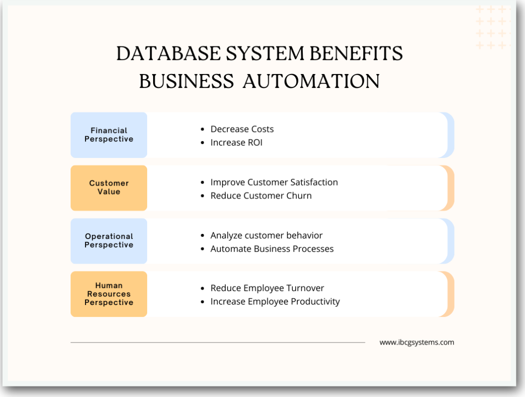


Microsoft Access Database System

In the dynamic world of business, laying a strong foundation is crucial. Discover the fundamental steps to establish a thriving enterprise that not only survives but excels in today's competitive landscape.

1. Data Ownership
2. Affordable
3. Tailored
4. Everlasting
5. Reliable Platform

FACTS: RELEASED | USERS |



DATABASE SYSTEM BENEFITS
BUSINESS AUTOMATION

Financial Perspective	Decrease Costs Increase ROI
Customer Value	Improve Customer Satisfaction Reduce Customer Churn
Operational Perspective	Analyze customer behavior Automate Business Processes
Human Resources Perspective	Reduce Employee Turnover Increase Employee Productivity

About

Software tools created specifically for hair loss specialists and trichologists. It streamlines client services allowing users to document, manage, and track comprehensive client information.

Hair & Scalp Software Modules

Title: Trichology Management Software
Developer: iBeauty Consulting Group, LLC
Product Branding: Trichology Management Software
Version: 1.0/0315.2025
Category: Hair & Scalp
Industry: Hair Loss (NAICS 8121 Personal Care Services)

System Features

- Connect internal and external links
- Add software modules
- No subscription or
- No monthly fees
- Software customization

Software Benefits:

purchase
cost benefit analysis
Cost
Benefit
Analysis

•Streamlined Operations: Simplifies the complexities of running a hair and scalp business.

•Improved Client Experience: Enhances client satisfaction through features like online booking and personalized communication.

•Increased Efficiency: Automates tasks and improves overall efficiency.

•Better Financial Management: Provides tools for tracking revenue, expenses, and profitability.

•Scalability: Some software is designed to scale to fit the needs of single-center, multi-provider, or multi-location businesses.

•Manage daily logistics of running your hair & scalp business
