Relative to the above cited claim for increase of pension, under the general law, you are advised that the testimony of Dr. Henry E. State of Pennsylvania County of Crawford, SS:

ON THIS 30th day of April A. D. one thousand nine hundred and Fifteen, personally appeared before me, a Justice of the Peace within and for the County and State aforesaid, Augustus McGill, aged 86 years, a resident of Saegertown, County of Crawford, State of Pennsylvania, who, being duly sworn according to law, declares that he is a pensioner of the United States, enrolled at the Washington, D. C. Pension Agency at the rate of 30 dollars per month, under Certificate No. 211,582, by reason of disability from (Here name the disability or disabilities for which now pensioned.) rheumatism and resulting disability

incurred in the Military (Military or Naval.) service of the United States, while serving as a Private (Here state rank, company and regiment, if in the Army; or rating and name of vessel, if in the Navy.) in Co. F, 83rd Regt, Pa. Vols.

That he believes himself to be entitled to an increase of pension on account of increased disability for which he was pensioned, being totally disabled and unable to perform manual labor of any kind, or to care for himself.

(Here state reasons for applying for increase. If on account of increase in the disability for which already pensioned, the fact should be stated, and the manner and extent of the progression of the disability described. If on account of diseases resulting from the disability for which pensioned, the names of the disease should be stated.) That an enfeebled and paralyzed condition has resulted from repeated attacks of said disease until he has become entirely helpless and requires the constant daily aid and attendance of another person in the performance of the ordinary functions of life.

That this helpless condition has gradually grown upon him from the date of his discharge from the service, more especially for the last ten years — and is absolutely the direct result of the disability for which he is now pensioned.

Declaration accepted as a claim under the general law. Power of attorney valid as to execution.

Chief, Law Division.

Per [signature]

and he hereby appoints, with full power of substitution and revocation, Isaac Mondrian, Esq of Meadville Pa his true and lawful attorney, to prosecute this claim.

His Post Office address is Saegertown, Pa.

PHYSICIAN'S AFFIDAVIT.

TAKE NOTICE.—The affidavit should, if possible, be in the handwriting of the affiant; and the marginal instructions carefully observed before writing out the statement. All the facts in possession of affiant as to the origin and continuance of the disability should be fully set forth, and the dates of treatment should be specifically given. If the affidavit is prepared from memoranda in possession of the physician, that fact should be stated.

(Rank, company and regiment if in the army; or vessel and rating, if in the navy.)

Personally came before me, a JUSTICE OF THE PEACE in and for the aforesaid County and State of Pennsylvania whose Post Office address is Saegertown Pa

well known to me to be reputable and entitled to credit, and who being duly sworn, declares in relation to the aforesaid case as follows:

That he is a practicing physician, and has been acquainted with the above-named soldier for about forty years, and that he has been claimants own

and family physician for the past thirty

years and that he has been acquainted with the claimant for about fifty years but did not know him prior to his enlistment. Has treated him for rheumatism and heart & kindred affections at various intervals for the past thirty years. He has general muscular and articular rheumatism, accompanied by heart affection. Has had, even since he has known him complete ankylosis of the right knee joint with more or less of the time severe pain in lumbar region, making him at times almost completely helpless. His heart from rheumatism has been greatly complicated. Is weak irregular and intermittent in its action, sounds muffled and very indistinct. Any exertion on his part causes dyspnoea.

He never, since I have known him has been capable of performing manual labor whatever. He now requires the constant aid and attendance of another person. Is not able to get about of himself but requires to be taken about on a wheelchair.

In my judgement, his condition is due more to his Rheumatism

NOTES.

The Physician's Affidavit must show the following facts:

Whether or not he knew the soldier prior to enlistment; the length of time he has known him, how intimately and what opportunities he has had of observing his physical condition, whether as his family physician or as a neighbor, and how near he has lived to him. If he knew that the soldier was a sound man at enlistment, he should so state, adding, if true, that had he been unsound, he would have known it.

If he treated claimant while in the service either as his regimental surgeon or while home on furlough, that fact should be stated. The claimant's physical condition at such times should be clearly shown, as well as the NATURE OF HIS DISABILITY and dates of treatment.

If he has treated soldier since discharge he should so state, giving the date of first treatment; what his physical condition was at the time, with complete diagnosis of the disability; the period during which he treated him should be stated, with dates as near as possible, of prescriptions, or visits.

The extent or degree to which claimant has been unable to perform manual labor during each year from discharge or first acquaintance to the present time

In the matter of Increase Invalid Pension Claim Certificate No.211582 of Augustus McGill Co.F. 83rd.Penn'a Vols.

On this 23rd day of July 1902,personally appeared before me,a Justice of the Peace,within and for said county and state,duly authorized to administer oaths. Augustus McGill aged 74 years,the above named claimant,well known to be reputable and entitled to credit,and who,being duly sworn declares as follows as follows.

That he is permanently helpless from rheumatism and its results(including heart disease as a result)contracted in the service of the United States and in the line of duty and for which he is now receiving a pension of $30 per month. That his degree of helplessness is such as to require frequent and periodical,though not regular and constant,personal aid and attendance of another person.

That his present and permanent condition is as follows: He cannot stand erect on his feet without severe pain of back and hips: cannot walk over a hundred yards without resting,and then only at the expense of great pain and inconvenience. He is confined to his house practically all the time;cannot cut finger nails;cannot lace or unlace his shoes or put on or take off shoes and stockings without help;cannot change underclothes; cannot take off clothing at all without help,and needs help to put on trousers,coat and vest and often has to call help to button his trousers after urinating: cannot pick up anything off the floor or ground; that his grip is uncertain and he is liable to let fall anything he attempts to handle.

He cannot bathe,or wash his feet,or cut his toe nails under any circumstances and must periodically (once a week) have others do these things for him or go unclean.

The lumbar region of his back is very lame and exercise on his feet causes acute pain of hips and back. Partial paralysis of right hand,arm and leg,which are in a great degree helpless; left arm and hand is the same in less degree,all of which followed as a direct sequence,the inflamatory action of acute rheumatism. Muscles of arms and legs usually sore and subject to cramps and aches. Action of heart irregular,causing shortness of breath.

In many ways not mentioned,affiant needs the frequent and periodical aid and attendance of another person to secure to him the ordinary necessities of life of which he would otherwise be deprived.

I, Augustus Wickliff, the above named Claimant being duly sworn according to law do on oath say and declare that my place of residence for five years immediately preceding my enlistment was Sayerstown Pa. That about nine months prior to enlistment I removed to Randolph Tp Crawford Co Penna and engaged in the manufacture of Oil Bbls. When I enlisted I removed my family home to Sayerstown Crawford Co Penna

That my regular occupation prior to enlistment was that of a farmer, and not a "Cooper" as shown by Army records. That I never learned any mechanical trade. That from 1852 to 1856 taught school part of each year, working meantime on my fathers farm at Sayerstown Pa The occupation "Cooper" was probably given from the fact that I was last employed in manufacturing Oil Barrels.

That since discharge from the military service of the United States I continued to reside at Sayerstown Penna until admitted to the Soldiers Home at Dayton Ohio in the Spring of 1877

That my occupation since discharge

has been two terms Justice of the Peace, I have been local Agent for Aetna Fire Ins Co of Hartford Conn. Have done business for Lycoming Mutual Fire Ins Co and for the Farmers Mutual of Crawford Co Penn a That I have worked at Conveyancing, posting books, auditing accounts and anything else that may that I could get to do to support my family and with the exceptions hereafter noted I performed no manual labor.

That the following is a circumstantial history of my disability That I incurred rheumatism by exposure in the line of duty in the military service of the United States in November 1862, That about the same time I incurred a bronchial affection which caused apprehensions of serious results but which entirely disappeared in the Spring of 1863. That at this time I did not apprehend permanent disabilities from rheumatism. After my return home in the Spring of 1863 I was treated for rheumatism by Dr Beardeman, a Lutheran minister and Physician resident at Saegertown Pa. This Doctor visited at my house four times and prescribed for me seven times after I was able to be out This was about March or April 1863. Dr Beardeman is dead - Died at Edinboro Pa before the Close of the war - I think -

Dec. 26 1863 reenlisted. The exposures of the Wilderness Campaign of 1864 brought re-dications of a return of the old malady. In front of Petersburg Va about the time of the taking of the Norfolk R Road was very lame with rheumatism and was thereafter obliged to be exceedingly careful, particularly as to exposure to wet. Suffered rheumatic pains of face. After Lees surrender on the return march to Washington, at the Occoquan river Va was exposed to a severe rain & storm was thoroughly wet marched in the storm to Fairfax Station Va, arriving in the night. Next day had rheumatism very badly. Could not keep up with the column and arrived at Camp near Alexandria Va four hours behind time. During this reenlistment was on "Special duty" as Clerk at Hd. Qrs. 3d Brig. 1st Div. 5th A.C. and at this time on arriving at Alexandria Va I procured a furlough from Capt E.S. Farnsworth A.A.A.G. and went home. I was very sick with rheumatism and was immediately treated by Dr J.K. Scholl of Susquehanna Pa. This was about June 1. 1865. June 29/65 I returned to Washington D.C. and met the regiment at the Depot embarking for Harrisburg; returned with Regt and was discharged and paid at Harrisburg Pa. Returned home in July and went to work. Worked at repairing fences two days and at making hay four days. Could not stand the work - and this is all the manual labor I

have performed since discharge. Later, in the fall of 1865, had a relapse of rheumatism, which absolutely and totally disabled me for the performance of any kind of manual labor for all time.

I was treated mostly by Dr J. W. Scholl was treated some by Dr M L Faulkner of Venango Pa Dr Robert Clark of Venango frequently advised in regard to my case. Many Physicians have examined my right leg and made professional and scientific suggestion in relation thereto, but all essential treatment since discharge is within the knowledge of the three Physicians named. From about July 6th 1868 to Jan 1st 1869 I was under treatment of Dr C B King now, Cor. Anderson & Lacock St Allegheny Penna. The treatment consisted of mechanical appliances to straighten the limb by pressure. Was only partially successful and was not attended with any good results.

I further swear that I have had no attacks of acute disease of any kind since the incurrence of my disability or treatment for such disease other than is above fully set forth, and further saith not.

There is a partial displacement of the knee joint caused by atrophy of its articulations and the leg projects backward from the knee at an angle of about 40 degrees in which position it is fixed by partial anchylosis: the adhesion however is not sufficiently firm to sustain his weight. The muscles are very much fallen away and the limb is attenuated and powerless. I know the above facts from personal examination. His disability has not improved in the last four years.

In the matter of Inv. Pension Claim of Augustus McGill

On this 2nd day of September A. D. 188/ personally appeared before me, a Notary Public in and for the aforesaid county, duly authorized to administer oaths Hon Samuel B Dick aged years, a resident of Meadville in the County of Crawford and State of Pennsylvania well known to me to be reputable and entitled to credit, and who being duly sworn declares in relation to the aforesaid case as follows: That in 1863 I was State Commissioner of Musters at Pittsburgh Pa and subsequently Colonel of the 56th Regt Penn'a Militia and about the 29th day of June 1863 I mustered said Claimant into the State service as Captain of Co. "D" of said Regiment. At the time of so mustering him he was much disabled with Rheumatism contracted in former service and I had serious doubts as to his physical ability to endure the Campaign in West Virginia then contemplated: but in view of his well known efficiency as an Officer I mustered him and he served through the Campaign to Aug 13. 1863. though his health was evidently much impaired.

I have known Claimant for many years and commend him to the favorable Consideration of the Department

His Post Office address is Meadville Crawford Co Penn'a

I further declares that I have no interest in said case and am not concerned in its prosecution.

That later, in the fall of 1865 he had another attack affecting his limbs, I treated him daily for a considerable time and the inflammatory action subsided under treatment Except as to the right Knee; this became displaced in consequence of Atrophy of the articulations of the Joint. The following year Anchylosis ensued but the adhesion of the joint was never sufficiently firm to sustain his weight, and the Atrophy, or falling away of the femoral Muscles, rendered the limb powerless. I had personal and professional knowledge of this Case Each year from June. 1865. To Dec. 1876. and during all this time Claimant was totally incapacitated for performing any Kind of Manual labor by reason of rheumatism. I further Certify from personal knowledge that Claimant is respectable and honorable and of Correct habits. As to the Cause of said disease I have no personal knowledge, but professionally I believe the remote cause was exposure to Malarial influences in the Peninsular Campaign of 1862. and the active development of the disease was due to Exposure, Subsequently while in the Military Service.

a general deformity of the body and limbs with complete anchylosis of the right knee joint, from both muscular and articular rheumatism. Also an organic disease of the heart, causing great shortness of breath preventing at all times any particular exercise. From these causes there is always a definite degree of helplessness necessitating daily attendance and help from others. This helplessness has existed and steadily increased, for the last three years, is permanent and progressive and from the nature of the afflictions must necessarily increase as he grows older. Whether or not he knew the soldier prior to enlistment; the length of time he has known him, how intimately and what opportunities he has had of observing his physical condition, whether as his family physician or as a neighbor, and how near he has lived to him. If he knew that the soldier was a sound man at enlistment, he should so state, adding, if true, that had he been unsound, he would have known it.

If he treated claimant while in the service either as his regimental surgeon or while home on furlough, that fact should be stated. The claimant's physical condition at such times should be clearly shown, as well as the NATURE OF HIS DISABILITY and dates of treatment.

If he has treated soldier since discharge he should so state, giving the date of first treatment; what his physical condition was at the time, with complete diagnosis of the disability; the period during which he treated him should be stated, with dates as near as possible, of prescriptions, or visits.

years. The case is one of rheumatism and results without any other serious complications. Its origin the soldier alleges was while in the service as shown by documentary evidence and its history so far as I know is, that about the close of the war claimant had a severe attack of inflamatory rheumatism involving the joints of almost the entire body and causing a rheumatic affection of the heart. From this attack he lost the use of the right-leg, the knee joint becoming completely ankylosed, necessitating the use of an apparatus in walking. Since he has been under my treatment he has had rheumatism of more or less severity, all the time of an inflamatory type affecting the arms, hands, shoulders and muscles and tendons of the back. This, with the almost total loss of use of the right leg renders locomotion very difficult and at the best very painful. This condition of heart, with the consequent shortness of breath, confines him to the house the greater part of the time and also adds greatly to the difficulty in getting about. Since an acute attack of inflamatory rheumatism about seven years ago, he has lost the use to a great extent of the arms and hands. The arms are weakened and hands benumbed & powerless. His grip is gone and he is unable to help himself to the ordinary necessities of life. He requires the help of others constantly and daily and could not exist without such

That he cannot lace or unlace his shoes, put on or take off his stockings, drawers or undershirt, wash his feet or cut his toenails, and has to have help to take his bath and in many other respects of equal necessity he is helpless. All this helplessness is due to rheumatism and resulting heart disease and is their natural sequence and was caused by nothing else. During all the years that affiant has known and lived with claimant, he never suffered from any other serious disease or complaint. His present degree of helplessness is permanent, hopelessly so. I was then a resident of Austin Pa. Since July 5th 1898 I have made my residence with my father at Saegerstown. I work six miles from here and return home every Saturday night and remain over Sunday. On Sunday I change fathers clothes and give him a bath, wash his feet, pare his toe nails and fix him up generally. He cannot do those things for himself on account of helplessness from rheumatism. He is practically confined to the house all the time. Cannot stand on his feet or walk without suffering great pain and inconvenience, caused by rheumatic lumbago. His right side, arm, leg and hand are numb from effects of severe inflamation-and stiffended and weak; left side also in less degree. Mother assists him every day. His condition is permanently such as to require the frequent and periodical aid and attendence of another person to secure to him the ordinary necessities of life, of which he would otherwise be deprived. His general health, excepting heart trouble, is reasonably good and his mental energy unimpared, but there can be no mistake about the degree of helplessness from rheumatism and its results.

I move his chair to the porch when he wants to sit outside, bring his tobacco and pipes, papers etc. and take them in again; often bring him a drink of water and do chores. I sometimes button up his pants for him when his fingers are so numb that he cannot manage it himself. We all help him more or less. He cannot lace or unlace his shoes or stoop over to pick up anything from the floor. He is very unsteady on his feet when he attempts to walk and can only do so with ~~utmost~~ evident pain and difficulty. He wears an iron brace on his right leg which is crooked. In the matter of Invalid claim for Increase of Pension No 711,582

Augustus McGill Co F, 83d Regt Penn'a Inf Vols

ON THIS 30th day of June, A. D. 1902, personally appeared before me a Justice of the Peace in and for the aforesaid County, duly authorized to administer oaths Ethel Campbell aged 18 years, a resident of Saegertown, in the County of Crawford, and State of Penn'a whose Post-office address is Saegertown Pa

well known to be reputable and entitled to credit, and who, being duly sworn, declared in relation to aforesaid case as follows: I am a grand-daughter of claimant and have had a home with my grandparents at Saegertown for over five years; am attending school

(NOTE.—Affiant should state how he gains a knowledge of the facts to which he testifies.)

and I have every opportunity to know that he is very helpless and needs assistance in some respects every day. Grandmother aids him more than all the rest, assisting him about managing his clothes every day. We all do what is required in attending him. I take his letters to the office and bring his mail and do his typewriting for him and it has become a habit of which we take little note, to do anything for him necessary to his comfort. My uncle, W.R. McGill gives him a bath Sundays and changes his underclothing. He is practically confined to the house all the time and walks but little and that with much difficulty; he complains of numbness of left hand and arm and in many respects he cannot help himself

I further declares that I have no interest in said case and am not concerned in its prosecution.

period of time. I have known him as Editor of a weekly paper, Justice of the Peace, Notary Public and Bor'o Secretary. During the last five years he has given up former persuits on account of physical inability to perform incumbent public functions though he retains fully his mental vigor and intellectual force. My last visit to claimant was from May 26th to June 2d (inclusive) 1902 when I had ample opportunity to personally observe his condition: From the effects of rheumatism and its results he is permantly helpless to such a degree as to require the frequent and periodical aid and attendance of other persons to secure the ordinary necessities of life of which he would be deprived without such help. His wife, Mrs. Sarah McGill renders such aid as is required and all the family assist. He has to be helped in putting on and taking off his clothes, shoes and stockings and underclothing. I was present and assisted his son, W. R. McGill in changing his clothes and giving him a bathon Sunday June 1. The matterof his helplessness in this respect is beyond doubt.

I further declares that I have no interest in said case and am not concerned in its prosecution.

calls to see him, particularly on Sundays and by such means is well informed as to claimants physical condition. He suffered years ago, about the close of the war, from inflammatory rheumatism of unusual severity which prostrated him for about two years and caused heart trouble. He has ever since been a victim of the disease which has left in its trail rheumatic lumbago and rheumatic paralysis of arms, hands and limbs and has reduced him to such a degree of helplessness as to require the frequent and periodical aid and attendence of another person to secure to him the ordinary necessities of life, of which he would otherwise be deprived. He has but little muscular force; his grip is weakened, and he cannot hold on to an object with any certainty, he can only walk with the aid of artificial appliances and then at the expense of great pain and inconvenience; is confined to the house all the time; cannot dress or undress without help, bathe, lace or unlace his shoes, or perform many other acts of equal necessity without assistance from others. He is compelled to wear an iron brace on his right leg on account of a weak adhesion at the knee joint which is ancholyzed and crooked, the leg is shrunken and without the support of the brace he could neither stand or walk. Degree of disability.

In our opinion the said McGill is total ($15.00) incapacitated for obtaining his subsistence by manual labor from the cause above stated.

A more particular description of the applicant's condition is subjoined:

Particular description.

Height, 6 ft; weight, 165; complexion, light age, 52; pulse, 80; respiration, 20

He states that he had rheumatism in the service and that it affected especially the Rt. Knee. There is now complete anchylosis of that joint the limb being bent at an angle greater than a rt. angle. He states that he has a number of times tried to walk on the leg, but it always breaks up the adhesions and lays him up, and he has to constantly use crutches. He is worse off than if the anchylosis was so firm that he could use the limb. We consider his statements perfectly reliable. There are now concretions around the joint.

Rank, 2d Lieut

Company, I

Regiment, 83d Penn Vol

State, Penn

EXAMINING SURGEON'S ADDRESS:

Post office, Logansport

County, Cass

State, Indiana

Date of examination, Febuary 28th, 1884.

Present rating. The applicant states that he is now paid at the agency for a Total ($15.00) disability, on account of Rheumatism & results, and that he applies for increase on the ground that "there has been an actual increase of the disability" also "The disability is equivalent to the loss of the leg above the Knee"

That the present rating is unjustly low, or that there has been actual increase of the disability.

Particular description. He states that he is 55 years of age, that he weighs 185 pounds, and that he is 6 feet 0 inches in height.

His pulse-rate per minute is 112, his respiration 20, and his temperature 98.75.

The surgeon should not recommend increase excepting for one of two reasons—that the present rating is unjustly low, or that the disability has really increased. In either case the reasons for changing the present rating should be clearly set forth, and should include a full statement of the physical and rational signs.

The examination reveals the following conditions: There is complete anchylosis of the right knee. The limb is bent at an angle of twenty degrees with large calcareous deposits about the joint as a result of rheumatism. Also some irritation of the right sciatic nerve, with tenderness in its whole course. He wears an artificial support or brace for the knee, as he cannot bear the weight of his body, and is compelled to walk on crutches. There is muscular atrophy of right hip, thigh & leg. The limb is useless and a source of great pain. Has some hypertrophy of the heart with dilatation. First sound of heart is prolonged and dull, action is heavy bounding & irregular and the impulse is felt throughout the entire chest. Area of cardiac dullness is increased. The heavy throbbing action of heart is plainly visible. Radial pulse has a kyrick percussing character. The carotids throb visibly. Pulse is feeble and irregular. He is subject to syncope with palpitation of heart at this time. The disability as a result of rheumatism is equivalent to the loss of a leg "at or above the knee" and will entitle him to an increase under present act of Congress.

Judging from the condition and history of the claimant, it is our opinion the disability was incurred in the service as claimed, and that it is not aggravated or protracted by vicious habits.

We find the disability as above described to entitle him to a $30.00 rating.

We hereby certify that in compliance with the requirements of the law* we have carefully examined this applicant, who states that he is suffering from the following disability, incurred in the service, viz:

Cause of disability. rheumatism & total disability of right leg also heart disease

If a pensioner, fill in the amount; if not, erase the whole line. and that he receives a pension of thirty dollars per month.

Pulse rate per minute, 96; respiration, 18; temperature, normal, height, 5 feet 11½ inches; weight, 200 pounds; age, 59 years.

He makes the following statement upon which he bases his claim for† Increase, claims inc. under act of Congress of Aug. 4. 1886. He considers his disability of the leg to be total. Cannot put the foot to the floor — or bear any weight on the right leg — whatever. Wears an apparatus constantly & thus walks.

Here give the claimant's statement as briefly and as compactly as possible. Heart difficulty has become aggravated since former examination. Has it now all the time. It came in subsequent to his rheumatism.

Upon examination we find the following objective conditions:

Here give a full symptom picture of the case, embracing all the physical and rational signs, but confining it to the *present* condition of the claimant. Right thigh atrophied — circumf. 1 inch less than left. A depression in the soft parts at the right hip joint. There is complete anchylosis of the right knee joint — with atrophy of the soft parts and displacement of patella — towards outer aspect of joint. The leg is flexed upon the thigh at an angle of 35 to 40 degrees. There is atrophy of the muscles of the leg — Circumference being ½ inch less than that of left leg. There is partial anchylosis of ankle joint, motion impaired about three — fourths. Foot & leg cold & clammy. No voluntary motion of toes.

It must be borne in mind that the duty of the Surgeon is to give an opinion as to the proportionate degree of disability, as ¼, ½, total, &c., through the grades, *without any regard to dollars and cents*, and to make such a full particular description as will afford to this Office the ground for intelligent opinion and action in rating. Pensioner cannot make use of leg for walking or standing except as supported by an iron brace. Present condition due to rheumatism. Total disability exists in the entire limb.

Here give a full symptom picture of the case, embracing all the physical and rational signs, but confining it to the *present* condition of the claimant. The heart's action is rapid, with prolonged first sound, and second sound nearly obliterated. Pulse at wrist very small, and in erect position marks 135. No special change of apex beat — or area of cardiac dulness.

It must be borne in mind that the duty of the Surgeon is to give an opinion as to the proportionate degree of disability, as ¼, ½, total, &c., through the grades, *without any regard to dollars and cents*, and to make such a full particular description as will afford to this Office the ground for intelligent opinion and action in rating. No oedema of extremities. Rate — total

Additional

From the existing condition and the history of this claimant, as stated by himself, it is, in our judgment, probable that the disability was incurred in the service as he claims, and that it has not been prolonged or aggravated by vicious habits.
