M-Class

Pro-Level and VR Ready Performance
Without Breaking the Bank

Powerful Workstation Processors

Pro-Level and VR Ready Performance
Without Breaking the Bank

AI, Ready for You

NVIDIA NIM-ready and engineered to run
NVIDIA NIM microservices—optimized AI
models for language, speech, vision, content
generation, and more.

Reliable Workstation Memory & Storage

Push the limits of your system like never-before
with DDR5 memory, unlocking even faster
frequencies, greater capacities, and better
performance. Load games, boot Windows, open
and transfer files, all faster than ever.

Optimized Cooling

The M-Class custom workstation offers
premium cooling options that keep the
system cool and stable during intense use.
