CUSTOMIZATION

Every bag we manufacture can be tailored to match your exact brand, product and logistics requirements. From sizing and printing to lamination and reinforcement — we engineer packaging that performs and sells.

PRINTING

Flexographic up to 6 colours and BOPP rotogravure up to 8 colours — photographic-quality graphics on any surface.

SIZING

From small 5 kg retail packs to 2000 kg FIBC bulk bags — any dimension, any capacity, fully customisable.

LAMINATION

Glossy, matte or anti-skid BOPP lamination for premium shelf appeal and enhanced moisture resistance.

COLOUR

White, beige, black, natural or fully custom Pantone-matched colours — consistent batch to batch.

STITCHING

Single or double fold, single or double stitching with coloured threads — engineered for heavy-load durability.

UV & LINER

UV stabilisation for outdoor storage and optional polyethylene liners for moisture and contamination protection.
