SUMMARY

Motivated B.Tech Plastic Engineering student at Central Institute of Petrochemicals Engineering & Technology seeking an internship opportunity to gain more knowledge of polymer processing, injection moulding, and manufacturing technologies while gaining practical industrial experience.

EDUCATION

B.Tech – Plastic Engineering

Central Institute of Petrochemicals Engineering & Technology, Lucknow

Expected Graduation: 2028

TOOLS & SOFTWARE

- MS Word & MS PowerPoint
- AutoCAD (Basic)
- Python,HTML,C++

KEY SKILLS

- Polymer Processing
- Injection Moulding
- Extrusion Technology
- Plastic Testing & Quality Control
- Problem Solving
- Teamwork & Communication
- Quick Learning Ability
- Technical Documentation
- Time Management
- Basic CAD Designing

KEY ACHIEVEMENTS

- Participated in APM, Lucknow
- Participated in UPITS Expo, Noida
- Attended PLASTINDIA 2026
- Active participant in technical workshops and industrial exhibitions
- Interested in polymer processing, manufacturing, and industrial innovation

LANGUAGES

- English *(Speak & Write)*
- Hindi *(Speak & Write)*
- Japanese *(Learning)*

EXPERIENCE

- Gaining practical knowledge in polymer processing and plastic manufacturing through academic projects, workshops, and industrial exhibitions.
- Familiar with injection moulding, extrusion processes, and plastic testing techniques.
- Exposure to industrial technologies through participation in APM Lucknow, UPITS Noida, and PLASTINDIA 2026.
