Your born again testimony

Being born again is not a statement, it is a complete transformation. While your flesh may stay the same your heart of stone is replaced. You are given a new spirit that is free from the shackles of sin and death that you were bound to. And your name is now written in heaven in the Lamb's book of life.

Write down your testimony. Where were you, what did you do and what happened, what changed right after you decided to Follow Christ?				

-	

The gift of Jesus Christ that you have been given is a gift that never stops giving; so go back to what you have written and write down the rippling effect of your new life.

By sharing your testimony you are being a witness to what Jesus Christ has done for you, this opens up the door for you to share the Gospel and being obedient to the mission commandment given in Mark 16:15.
