

Commission-Based Internship & Volunteer Program

Create Your Own Project, Secure Funding, Get Paid

Organization: Apex Development Foundation Inc. | **Date:** December 28, 2025

Program Overview

Apex Development Foundation offers a revolutionary approach to internships and volunteer engagement. Instead of working for free on someone else's project, you identify a cause you're passionate about, develop a project to address it, secure funding through grants and internet-based fundraising, and receive commission-based compensation for your work. We provide expert consultation, administrative support, and the infrastructure to turn your vision into reality while you learn entrepreneurial skills that last a lifetime.

How It Works

- 1. Identify Your Project:** Choose a cause or initiative you believe in—technology education, clean energy, youth empowerment, healthcare access, or anything aligned with positive community impact.
- 2. Develop Your Budget:** With Apex guidance, create a comprehensive budget that includes funding for yourself as project lead, Apex administrative supervisors, and any staff you need to hire.
- 3. Secure Funding:** Learn to apply for grants and leverage internet-based fundraising platforms (crowdfunding, social media campaigns, corporate sponsorships) to raise money for staffing and operational expenses.
- 4. Lead Your Project:** You're in charge. Hire your team, manage the budget, implement your plan, and deliver measurable impact with Apex volunteers partnering as consultants.
- 5. Receive Compensation:** Earn commission-based wages tied to the funding you successfully secure. This isn't charity—you're paid for your work, your leadership, and your results.

What You Learn

- **Grant Writing & Fundraising:** Master the art of securing external funding for real projects
- **Budget Development:** Create financial plans including personnel costs and operational expenses
- **Team Management:** Hire, supervise, and coordinate staff to achieve project objectives
- **Digital Marketing:** Leverage social media and crowdfunding platforms to raise money and build support
- **Project Leadership:** Take full ownership of an initiative from conception to measurable impact

Where Your Funding Comes From

We use the internet to raise money for our projects and initiatives. The new generation—and increasingly affluent individuals with skills in technology, marketing, and social media—excel in this model. You'll learn to tap into multiple funding streams:

- **Crowdfunding Platforms:** GoFundMe, Kickstarter, Indiegogo, and Patreon for staffing costs and functional expenses
- **Social Media Campaigns:** Facebook Fundraisers, Instagram donation features, TikTok creator funds, and viral challenge campaigns
- **Grant Applications:** Foundation Center, Grants.gov, and specialized platforms for nonprofit and social impact funding
- **Corporate Sponsorships:** Direct outreach to businesses aligned with your project mission
- **Peer-to-Peer Fundraising:** Mobilize your network to become fundraisers on your behalf
- **Community Investment:** Local fundraising events, donor circles, and neighborhood funding initiatives

Your Digital Advantage: If you're comfortable creating content, building online communities, or running social media campaigns, you have everything you need to succeed. This program rewards creativity, hustle, and the ability to tell compelling stories that inspire people to invest in your vision.

Top 4 Project Pathway Suggestions

Not sure where to start? Here are four proven pathways that align with global needs and attract funding:

1. **Technology Access & Digital Literacy:** Bring internet connectivity, computer training, or coding education to underserved communities. Crowdfund equipment and instructor salaries. Align with government digital inclusion initiatives.
2. **Clean Energy & Environmental Solutions:** Install solar panels, distribute clean cookstoves, build water purification systems. Use social media to document impact and attract eco-conscious donors. Connect with municipal sustainability offices.
3. **Youth Empowerment & Skills Training:** Create job training programs, mentorship initiatives, or entrepreneurship bootcamps for unemployed youth. Document success stories on social media. Position as workforce development solutions.
4. **Healthcare Access & Community Wellness:** Launch mobile health clinics, mental health support networks, nutrition education. Build campaigns around compelling patient stories. Partner with public health departments.

What Makes This Different

- **You Get Paid:** No more working for free. Commission-based compensation means your income grows as your fundraising succeeds.
- **You're the Boss:** This is YOUR project. You make the decisions, hire the team, and control the direction. Apex provides consultation, not micromanagement.
- **Expert Support:** Apex volunteers with years of experience partner with you as consultants to ensure your project succeeds and you get paid.
- **Real Impact:** You're not fetching coffee or filing paperwork. You're creating jobs, serving communities, and solving real problems.
- **Transferable Skills:** Everything you learn—fundraising, budgeting, team management, digital marketing—applies to any career path you choose.
- **Maximum Impact, Minimum Output:** We focus on efficiency-based, practical budgets that deliver the greatest community benefit for every dollar raised.
- **Global Opportunity:** Students and anyone from anywhere with desire and drive to help others and create jobs will be given a chance and all of Apex Development Foundation's support to make it happen.

Who This Is For

This program is open to anyone—anywhere in the world—who has:

- A desire to help others and create positive change
- Drive and commitment to see a project through from start to finish
- Willingness to learn grant writing, budgeting, and digital fundraising
- Passion for a specific cause or community need
- Ability to work independently while accepting guidance and consultation

You don't need prior experience in nonprofit work, fundraising, or project management. We teach you everything. Whether you're a student, recent graduate, career changer, or community organizer, if you want to create jobs and support governments (local, national, global) in solving real problems, this opportunity is for you.

The Apex Development Foundation Commitment

- Provide consultation on project development, budget creation, and grant writing strategy
- Include Apex administrative supervisors in your project budget for oversight and support
- Partner experienced volunteers with you as consultants throughout your project lifecycle
- Offer access to our network of government contacts, corporate partners, and funding sources
- Ensure you receive fair commission-based compensation for funding you successfully secure
- Support your professional development with skills training that lasts beyond this program
- Advocate for your project within our UN ECOSOC platform and international partnerships

Ready to Create Your Project?

Get paid today with Apex Development Foundation supporting your initiatives, causes, and projects. Impact the world together. Make positive change today.

This is more than an internship—it's a pathway to entrepreneurship, leadership, and meaningful impact. You bring the passion and drive. We bring the infrastructure, expertise, and support. Together, we create projects that generate jobs, serve communities, and change lives.

Program Benefits at a Glance

- **Financial Compensation:** Commission-based payment for funding secured—no unpaid labor
- **Full Autonomy:** You lead your project with decision-making authority and team management responsibility
- **Expert Mentorship:** Apex consultants provide guidance while respecting your leadership
- **Entrepreneurial Training:** Gain real business skills in fundraising, budgeting, and project management
- **Internet Fundraising Expertise:** Learn to leverage crowdfunding, social media, and digital campaigns
- **Global Accessibility:** Open to anyone, anywhere with passion and commitment
- **Government Partnership Opportunities:** Support local, national, and global initiatives
- **Measurable Impact:** Create jobs, serve communities, and contribute to sustainable development goals

How to Get Started

Ready to turn your passion into paid project leadership? We want to hear from you. Share your vision for creating positive change, helping others, and building sustainable solutions. Apex Development Foundation provides the platform, support, and resources—you provide the drive and dedication. Together, we transform ideas into funded projects that make a real difference in the world.

Apex Development Foundation Inc. is a UN ECOSOC-accredited organization with Special Consultative Status, operating across eight countries and committed to technology education, women's empowerment, sustainable development, and clean energy initiatives. Established in 2005, our foundation has achieved significant milestones including UN ECOSOC Special Consultative Status in 2019, serving 200+ individuals annually through direct programs, and hosting international conferences with hundreds of participants. We maintain partnerships with leading institutions and government agencies, and our bipartisan funding success demonstrates our commitment to non-partisan, results-driven social impact.
