

## High-Speed Wire Rod Bundling Machine

**Manufacturer:** Guangdong Burton Intelligent Equipment Co., Ltd.

**Website:** <https://www.rollmillspares.com>

Automatic coil compacting and 4-point wire binding system designed for high-capacity wire rod mills. The machine ensures tight, clean, and stable bundles suitable for transport and long-term storage.

### Key Technical Data

- Wire rod diameter: 5.5 – 16 mm
- Coil weight: 1,000 – 2,300 kg
- Binding wire: 6.3 – 7.3 mm (Q235)
- Number of bindings: 4 per coil
- Bundling cycle time: approx. **32–35 s / coil**
- Control system: Siemens PLC + HMI
- Operation mode: Automatic / Semi-automatic / Manual

### Why Choose Burton

- OEM-compatible design for easy retrofit
- Stable performance for continuous production
- Clean knotting without protruding wire ends
- Competitive cost with European-equivalent performance
- Long-term spare parts and technical support
