## Wire Rod Bundling Head – OEM Replacement for Morgan Systems

Assembly Drawing No.: 10501993 | Weight Ref.: 10399812

This wire rod bundling head assembly is designed as an OEM-equivalent replacement for Morgan-type wire rod bundling systems, used in high-speed wire rod finishing lines. The unit integrates mechanical clamping, cutting and hydraulic actuation, ensuring stable and continuous bundling performance under industrial operating conditions.

Parameter	Specification
Application	High-speed wire rod finishing line
OEM Reference	Morgan bundling systems
Assembly Drawing No.	10501993
Weight Reference	10399812
Finished Assembly Weight	Approx. 1039.98 kg
Overall Dimensions (HxWxD)	Approx. 706 x 445 x 425 mm
Operating Mode	Fully automatic
Actuation Type	Hydraulic / Mechanical
