Ordinance 2025-08

Place decisions about the use of the library building with the Izard County Library Board, written by Bryan Miller.

I agree the Board is responsible for the books, computers and employees. However, that building was built by Horseshoe Bend citizens and their right to use it as they desire must be respected. I believe we should resolve this issue not by passing a law. I would certainly agree if Megan/Librarian schedules a group that takes precedent over others. In any of the scheduled times Megan/Librarian shall resolve the issue. Another revenge problem.

Mayor Duane C. DeLair

Ordinance 2025-13

Removing Gail Fuller from the planning committee.

Ms. Fuller has been an active contributor on the committee. No valid cause has been shown for this action.

Mr. Bryan Miller, who drafted the ordinance, did not provide any written cause to remove her. His reasons have not been made public and have only been based on, again hurt feelings.

I am requesting the council stop indulging Bryan's personal issues as the council can and probably will be held liable for these unfounded removals.

We have become the laughingstock of Arkansas. Bryan Miller pushes forward his handler's agenda. Numerous issues the council is not addressing appropriately. I feel my warnings are falling on death ears.

Passing laws to attack an innocent person is shameful, unethical and unwarranted.

Ordinance 2025-14

Remove Rick Broderick from the Zoning Committee

Again the Bryan Miller ordinance is based on no cause whatsoever, leaving the city open to litigation.

The council must realize that this continued course of action will create future problems for the city.

Who will volunteer only to be dismissed for no cause or adequate reason whatsoever.

This must stop.

Ordinance 2025-15

Removing Rick Broderick from the Building Committee

No valid cause has been shown for this action.

Again Bryan Miller's ordinance to remove anyone not agreeing with the current status quo.

This also opens the city up to litigation for no reason. His experience with building and codes make him a valuable member.

I believe the council should not follow Mr. Millers agenda to lower the standards of our building committee.

Mayor Duane C. DeLair
