

TOPFEI Trading Co., Ltd.

Your Trusted Partner in Home Energy Storage Solutions

■ Who We Are |

Established with a vision to power a sustainable future, TOPFEI specializes in bridging the gap between world-class Chinese manufacturing and the global demand for reliable energy storage.

We are not just traders; we are **technical consultants and supply chain partners**. With deep roots in the lithium battery industry, we help solar installers, distributors, and wholesalers source **certified, safe, and cost-effective LiFePO4 battery systems** directly from verified factories.

Our mission is simple: **Make energy independence accessible and hassle-free.**

■ Our Core Focus |

We focus exclusively on **Residential & Light Commercial Energy Storage**:

- **Wall-Mount & Floor-Standing Batteries** (5kWh - 15kWh)
- **Rack-Mounted & Stackable Modules**
- **All-in-One Hybrid Inverter Systems**
- **Complete Solar + Storage Accessories**

By focusing on a specific niche, we maintain expert-level knowledge of the products we sell.

■ Why Choose TOPFEI? (The 4 Pillars) |

Verified Quality & Safety |

We don't just ship boxes; we ensure compliance. Every product undergoes rigorous factory audits. We provide a full suite of international certifications:

■ CE ■ UN38.3 ■ MSDS ■ IEC 62619 ■ UL 1973 (Available upon request)

Technical Expertise |

Confused by BMS protocols or inverter compatibility? Our team speaks the language of energy storage. We assist with:

- Single-line diagram verification /
- Inverter matching (Growatt, Deye, Victron, Solis, LuxPower, etc.) /
- Pre-sales technical consulting /

Flexible Supply Chain |

Whether you need **1 unit for a pilot project** or **100 containers for distribution**, we manage logistics, customs clearance support, and palletization to optimize your shipping costs.

Transparent Partnership |

No hidden fees. No pushy sales tactics. We act as an extension of your procurement office in China, providing clear communication from the factory floor to your warehouse.

■ Featured Product Range |

| Category | Description | Best For |
|--------------------|--------------------------------------------------|----------------------------------------|
| 5kWh Wall-Mount | Compact, 90%+ DoD, IP65 rated ■90%+■IP65■ | Apartments, small homes, backup ■ |
| Stackable Modular | Scalable from 5kWh to 30kWh+ ■5kWh■30kWh+ | Growing families, future-proofing ■ |
| Rack-Mount LiFePO■ | High cycle life (6000+ cycles) ■■6000+■■ | Server rooms, telecom, off-grid ■ |
| Hybrid Inverters | Integrated MPPT & Grid-tie functions ■■MPPT■■ | New solar installations ■ |

■ Global Reach, Local Support |

While based in China, our business is global. We currently serve clients across:

- **Europe:** Germany, Netherlands, Poland (Focus on safety standards)
- **Africa:** South Africa, Nigeria (Load shedding solutions)
- **Southeast Asia:** Philippines, Thailand (Island & off-grid systems)
- **Middle East & Latin America**

We understand local voltage requirements (120V/230V), grid standards, and import regulations.

■ Our Commitment to You |

When you partner with TOPFEI , you get:

- **Fast Quotation:** Within 24 hours.
- **Quality Inspection:** Pre-shipment photos and videos.
- **After-Sales Support:** Remote troubleshooting and warranty claim assistance.
- **Long-Term Value:** Products designed to last 10+ years.

■ Let's Build the Future Together |
