

STP & WTP

Sewage Treatment Plant (STP)

We design and install advanced STP systems that ensure eco-friendly treatment and safe disposal of wastewater. Our plants are ideal for residential societies, institutions, hotels, and industrial facilities. Services include: Installation, upgradation, troubleshooting, and AMC.

Water Treatment Plant (WTP)

We provide customized water treatment plants for drinking, process, and commercial use. Systems include Sand Filters, Carbon Filters, Softeners, Iron Removal Units, and more.

Cleaning & AMC

Whether you are planning a new swimming pool or looking for dependable maintenance support, we deliver efficient, hygienic, and cost-effective swimming pool solutions tailored to your needs.
