

## **The Vibes Podcast/Studio – Team Bios**

### **Founder- Mike Gindraw**

Mike Gindraw, Founder of The Vibes Podcast, is building a powerful social-podcast network dedicated to highlighting urban culture, inner-city voices, and authentic Philadelphia storytelling.

From humble beginnings, Mike transformed a simple idea into a bold platform rooted in creativity, culture, and community. What started as a vision has grown into a movement. One that celebrates Philadelphia's unique identity while showcasing its talent to audiences around the world.

The Vibes was created to give people a voice, a platform, and the confidence to walk in their purpose.

As the network continues to grow, the mission remains deeply community-focused. Through youth programs, opportunities for individuals under 18, and cultural broadcasting initiatives, The Vibes is committed to creating access, giving back, and empowering the next generation while amplifying the heartbeat of Philadelphia.

### **Creative Director / Production Specialist- Sam White**

Sam is a multidisciplinary creative and graduate of the F.I.R.S.T. Institute for Audio-Visual and Stage Production. He specializes in videography, photography, editing, sound engineering, and project management.

Sam is known for bringing ideas to life from concept to final delivery, managing both the creative vision and the technical execution of each project. His work focuses on producing high-quality, story-driven content that elevates brands, artists, and businesses.

### **Visual Content Specialist- Shy**

Shy serves as a designated videographer and photographer, capturing high-quality visuals for brands, artists, and live events.

With a strong eye for detail and visual storytelling, Shy creates clean, impactful content designed to enhance brand identity and audience engagement.

### **Music Producer & Sound Engineer- Dell 808**

Dell is a music producer and sound engineer with over a decade of hands-on experience. Over the past 10 years, he has developed a signature sound by refining his ear, producing original beats, and mixing audio that meets professional industry standards. Dell's work supports artists, creators, and media projects seeking polished, high-quality sound.
