To help you better understand how it works, here's a quick breakdown:

Partner A: Connects the Flamingo Max to the app.

Partner B: Connects *any* Magic Motion toy (e.g., the Xone stroker) to the app.

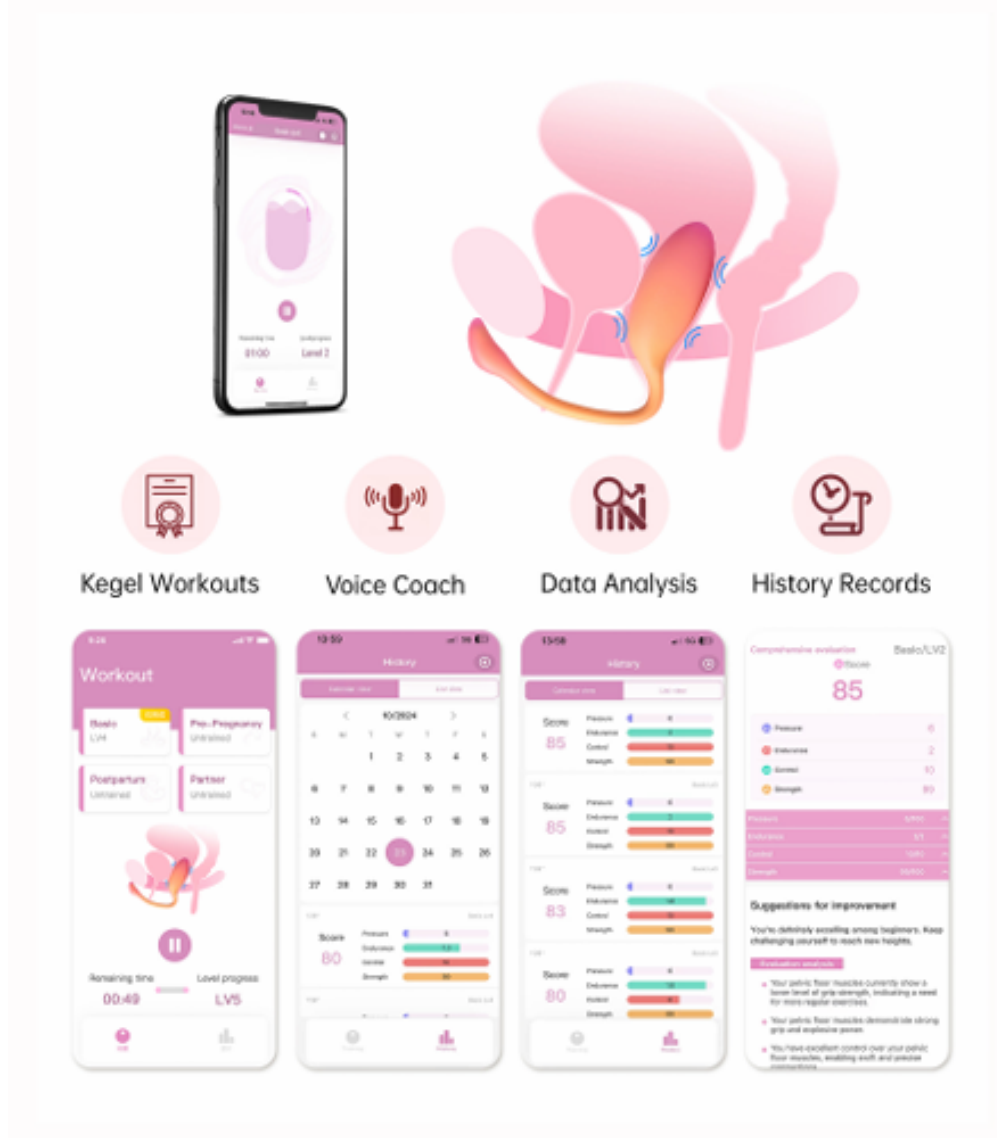

How it works:

- **A** invites **B** to a chat room.
- When **A** squeezes the Flamingo Max, the **XONE vibrates in sync** with the squeezing intensity.
- **B** can also use the app to control **A's** Flamingo Max—and **A** can boost the vibrations by squeezing harder.

Vibrator & Kegel Trainer

Flamingo Max is equipped with built-in sensors, making it more than just a vibrator - it also functions as a Kegel trainer.

While it doesn't provide as comprehensive data as specialized devices like the Kegel Master Gen 2, Rejuve, or Coach, its primary focus remains on pleasure.
