

The Sunday Morning Survival Kit

Eliminate dead air and band confusion with these two essential tools.

Lead with confidence. Communicate clearly. Serve with peace.

ESSENTIAL TOOL #1

The Silent Language: Visual Cues

Hand signals eliminate confusion during worship. Your team stays connected without breaking the moment.

Master these four cues. Transform your Sunday flow instantly.

Four Essential Hand Signals

Repeat Section

Index finger circling up. Use when the Spirit is moving and the moment needs extension.

Cut/End

Throat slash or sharp chop. Use to end cleanly on the next downbeat.

Build Dynamics

Fist rising steadily. Use to drive intensity and energy higher during worship.

Bring it Down

Palm pressing down softly. Use for intimate moments and quiet reflection.

 **Pro Tip:** Practice these signals during rehearsal. Consistency builds team confidence and eliminates hesitation.

ESSENTIAL TOOL #2

The 30-Minute 'War Room' Checklist

The half-hour before service sets the tone. Use this checklist to eliminate chaos.

Preparation brings peace. Peace brings presence.

Your Pre-Service Timeline

30 Minutes Out: Tech Check

Test all microphones and in-ear monitors. Replace batteries now, not during worship.

Sound issues kill momentum. Prevention takes two minutes.

10 Minutes Out: Mental Reps

Visualize the setlist from start to finish. Rehearse your first words mentally.

Confidence comes from mental preparation, not just practice.

1

2

20 Minutes Out: Team Huddle

Confirm song flow and transitions. Clarify any last-minute changes together.

Close with prayer. Unite your team's focus and hearts.

3

4

5 Minutes Out: Spiritual Center

Take deep breaths. Surrender the outcome to God completely.

This isn't about you. Release control and trust His presence.

"Anxiety doesn't come from lack of skill. It comes from lack of preparation."
