# EXPERIENCE THE POWER OF PRECISION COLD

Luxury Electric  
Cryotherapy  
Chamber -110°C

Harness the CryoX®  
Windchill Cooling  
System™ - Engineered for  
Performance, Longevity,  
and Regeneration.

## Engineering the Future of Cold Therapy

The CryoX® is the world's most advanced electric cryotherapy chamber, designed for luxury spas, performance centres, and longevity clinics. 100% electric, zero nitrogen, and minimal energy use — only 4.5 kWh usage. Compact footprint with intelligent automation and frost-free operation.

✓ 100% Electric

✓ Frost Free

✓ Smart Control

✓ Compact Design

CRYOX  
-110°C

# THREE MINUTES COUNTLESS BENEFITS

CryoX<sup>®</sup> uses intelligent airflow and precision cooling to trigger powerful physiological responses proven to enhance recovery, energy, and cellular repair.

✓ Beauty & Wellness

✓ Regeneration & Performance

✓ Longevity & Cognitive Health

✓ Weight Management

## The CryoX<sup>®</sup> Difference

Combining state-of-the-art compressor technology with precision airflow. CryoX<sup>®</sup> delivers -110°C performance safely and efficiently with no gas or nitrogen.

- Windchill Cooling System™
- ICE Cyclone Airflow™
- Smart Weekly Automation
- Remote Monitoring
- Plug & Play Installation
- CE Certified Safety Systems

# CryoX<sup>®</sup> Technical Overview

Temperature: -110°C  
Energy Use: 4.5kWh  
Size: 130 (W) x 160 (L) x 242 (H) cm

Capacity: 100 sessions per day  
Operation: 16 Hours Continuous  
Maintenance: Automatic Frost-Free

## PERFORMANCE MEETS PROFITABILITY

Smart automation, low running costs, and compact design make CryoX<sup>®</sup> one of the most profitable cryotherapy solutions available. Engineered for luxury spas, sports teams, and medical wellness operators.

- ✓ No Nitrogen or harmful consumables
- ✓ Quick installation - plug & play setup
- ✓ Up to 100 sessions daily for high ROI
