

Successful and aspirational pediatric gender-affirming care should be...

NORMALIZED

"... seen as entirely 'normal' [...] like any other essential care for a person's wellbeing."

MULTIDISCIPLINARY

"... [led by] a diverse group of professionals working together."

INTEGRATED

Included in healthcare providers' training

ACCESSIBLE

"... accessible for everyone within a reasonable timeframe [...] and regardless of migratory status."

CONCERTED

"... a collaboration with healthcare providers ».

Inclusive and valuing various trajectories

PLEASANT

"... at times, a party."

PERSON-CENTRED

« ... tailored to each person's needs ».

CELEBRATED

Quotes and themes from the CHU Ste-Justine Gender Diversity Clinic's first Participatory Healthcare Research Summit held on June 13, 2025.
