At **GIE**, we provide a complete range of **high-quality spare parts** for diesel generators, ensuring maximum reliability, efficiency, and long service life for your power systems. Our spare parts portfolio covers all essential components required for **maintenance, repair, and generator assembly**, sourced from trusted manufacturers and built to international standards.

Our Product Range

1. Diesel Engine Filters

- Air Filters
- Oil Filters
- Fuel Filters
- Water & Coolant Filters

Ensuring proper engine protection, extended service life, and optimized performance.

2. Fuel System Components

- Mechanical & Electric Pumps
- Fuel Level Gauges
- Senders & Sensors
- Control Valves

Guaranteed compatibility and stable fuel delivery across all generator sizes.

3. Electrical & Control Sensors

- Temperature Sensors
 - Pressure Switches
 - Speed/Rotation Sensors
 - Battery Charging Components
- Reliable monitoring for safe and smooth generator operation.

4. Generator Canopy Accessories

- Door Locks & Hinges
 - Gas Struts
 - Rubber Seals
 - Lighting & Wiring Accessories
- Designed to improve canopy durability, weather protection, and accessibility.

5. Anti-Vibration Mounts (AVMs)

- Engine AVMs
 - Alternator AVMs
 - Base-Frame Rubber Mounts
- Providing superior vibration isolation and longer equipment lifespan.

6. Assembly Accessories

- Bolts, Nuts & Fasteners
 - Flexible Exhaust Connectors
 - Clamps & Supports
 - Exhaust Bellows
 - Hoses & Fittings
- All essential hardware required for professional generator installation and assembly.

Why Choose GIE Spare Parts?

- Premium-grade materials and certified suppliers
- Reliable performance under harsh operating conditions
- Full compatibility with **Perkins – Cummins – CAT – Volvo – Doosan – MTU – MWM** and more
- Expert technical support and fast delivery
