

TITAN 28

While others gaze towards the horizon, Global Smart Marine is already there. We come from Poti, the dynamic and energetic coastal city on the Black Sea, embodying Georgia's strength and innovative spirit. The advantage of being at the heart of this region's rich maritime history and trade routes forms the foundation of our technology and philosophy: to create smart and efficient marine vessels that will last a lifetime.

We value the needs of modern maritime, which is why it is important for us to use advanced engineering solutions and smart technologies and to develop innovative solutions to make the boating industry more efficient, safe and accessible. The value of Global Smart Marine vessels lies not only in their robust and dynamic appearance, but also in their versatility, technology and superior performance

Main Characteristics

LoA – 8,43 m

LwL – 7,25 m

Beam – 2,55m

Draft – 0.35 m

Board height on the middle from the keel – 1,4 m

Board height on the middle from the chine - 1,01 m

Overall height – 2,71 m

Transom height – 635 mm

Hull material – Marine grade aluminum 5083

Keel – 10 mm

Bottom – 6 mm

Stiffener structure – 4 mm

Board – 4 mm

Deck and superstructure – 4 mm

Transom – 5 mm Doubled with T profile

Deadrise (stern/middle/bow) – 21/24/47

Displacement – 1600kg (light weight without engine (preliminary))

Fuel tank – 280 L

Passenger capacity – 6 seats

Carrying capacity – 1000 kg

Engine power –175-350 min/max hp

Max. speed – 40 knots.

CE certification – C

DECK FITTINGS AND ANCHORING	
Optional	Seadek Cockpit through to Cabin
Optional	Seadek cockpit only
Optional	Optional Carpet or Vinyl in lockable Wheelhouse model
	Drum Winch 8-8 with 10mt of
Optional	Lonestar GX4 Drum winch kit
	10kg Anchor, Anchor swivel, Bow sprit
	Assembly
	6x X-Fold cleats
	Mast with Nav light
Optional	Antenna, AM/FM antenna, base
Optional	GPS antenna, VHF
Optional	Radar Mount
Optional	Camera Mount
COCKPIT	
	Rod Holders 6 in rocket launcher
Optional	Rod Holders 6 in Cockpit
	Two cup holders in side Decks
Optional	Starboard swim Door
Optional	Dive Door
Optional	Rod rack storage
Optional	Electric Reel Outlets x2
Optional	Pot Hauler
Optional	Outriggers
Optional	Fridge
PULL OUT GALLEY	
Optional	Portable Butane stove
Optional	Benchtop with Stainless sink and water on pull out sliders
Optional	ICEBOX Long stored under seating on runners

TRANSOM	
	Zinc Transom Mount
	Pocketed 3 step ladder
Optional	Bait tank port side, 120L tank, lights, 1600GPH pump, Glass front
Optional	Bait board on a split board, drained bait bin under one side, tackle drawer under other, Knife and pliers cut outs. Slides and locks over centre of walkway, cupholders
Optional	Tuna Tube
Optional	Trim Tabs
Optional	Transom Door
WHEEL HOUSE	
	Two captains chairs
	Aft Bench Flip seat to face forward or aft
Optional	Sliding door to forward cabin
Optional	Lockable Wheel House (instead of Lockable fwd cabin)
Optional	Heater
Optional	Windscreen Wash

HELM STATION	
	Two Cupholders
Optional	USB 12v Dual Charging
	Stainless Steering wheel
	Dash construction
	Switches
	Compass
Optional	NMEA 200o starter kit, GPS Antenna, GT23-TH sounder
Optional	Garmin 115i VHF
Optional	GPS Multi function display 12 inch
Optional	GPS Multi function display 16 inch
Optional	Marine Stereo x4 6.5in speakers
	Electronic packages can be modified to be owner specific
INTERIOR FINISH	
	Painted Aluminium
	Timber trim
	Side Shelf Upholstered storage
	Two singles, convert to double with infill
PAINT	
	Full paint system to standard, partial fill and fair of the hull .

WATER SYSTEM	
	Washdown kit
	1100GPH pump, light, sea cock to pick-up
	Fresh water tank system 90L approx.
Optional	Hot Water Cylinder 12v/230v 10L
Optional	Galavanic isolator if you have 240V shore power system and hot water
Optional	Fresh water diverter valve Deckwash
HEAD	
Optional	Electric toilet under forward squab
Optional	Enclosed head in starboard behind bulkhead
ELECTRICAL	
	12v – 15A – 3 Output, Marine 16A – 230v Inlet
	Battery switching
	DC Distribution panel, circuit breakers, consumables, Electrical grommets
	DC Wiring Loom custom
	House Battery and Box (Start Battery Not inc.)

LIGHTING	
	2nm Prt/Stbd, and Mast
	Three downlights in wheel house
	Two downlights in cabin
Optional	Courtesy light on boarding platform x2
Optional	Rear Flood x2
Optional	Blue/White underwater lights x2
UNDERSOLE	
	Fuel tanks 1x 280L approx with filter, vent, hose
	Underfloor storage 3x Lockers, drained to overboard, hatch dogs, foam seal and dive bottle holders x4
	Bilge system 2x 110GPH
Optional	12v 35kgf, independent battery
OUTFITTING	
	Adhesives, Labour, Logos, Timber
	Joinery & consumables
	Stainless, Aluminum fasteners
	Build Insurance
Optional	Electrolysis Isolation protection

The unique concept of TITAN28 boats is designed to suit the needs of a wide variety of active users. Our single most important feature that sets us apart from others is the ultimate driving experience.

The aluminum hull gives our boats the characteristics of high quality, professional maritime vessels.

The key to our boats' durability and excellent driving qualities is the deep-v aluminum hull.

Not only a popular choice with professional boaters, aluminum has advantages that recreational boaters are able to enjoy as well. Aluminum is rigid and durable, yet extremely light and does not require constant maintenance.

Aluminum is also a great material as it is considered extremely safe: European regulations have classified aluminum as a category A1, meaning the highest possible rank for fire safety.
