TRANSFORMING AFRICA EPC+FINANCE COOPERATION AGREEMENT

Between

The Government of [Beneficiary Country], Representing the Pan-African Development Vision
(hereinafter referred to as the “Beneficiary Government”)

And

_____, Representing Chinese EPC+Finance
Investment & Technology Transfer

(hereinafter referred to as "CPC" or "Chinese Partner Company")

1. Preamble: Historical Legitimacy & Strategic Purpose

This Cooperation Agreement stands as a foundational step toward Africa’s industrial and economic sovereignty, aligning with:

The African Union (AU) Agenda 2063, emphasizing industrialization, infrastructure development, and strategic partnerships.

The historical need to break from neo-colonial economic dependency, ensuring African nations develop and control their own strategic industries.

The principle of self-sufficient development, drawing in order to promote sustainable wealth distribution and collective ownership.

The EPC+Finance model in this agreement is designed not only as a business structure but as an instrument for continental empowerment, ensuring the projects under this cooperation serve as:

- ✓ Assets of National Economic Sovereignty
- ✓ Centers for African Innovation & Technological Mastery
- ✓ Strategic Industrial Hubs Strengthening Intra-African Trade & Cooperation

This agreement is a declaration that African nations shall no longer be mere consumers of global industrial production but owners, producers, and innovators in their own right.

2. Scope of Cooperation

2.1. Investment, Infrastructure, & Economic Sovereignty

Both parties commit to:

Implement the EPC+Finance model for strategic infrastructure projects in key sectors, ensuring financial sustainability and long-term national benefits.

Establish Joint Agencies or Companies structured for long-term operations and intra-African trade expansion.

Equity Structure:

55% Ownership by the Beneficiary Government, ensuring national control and economic sovereignty.

45% Ownership by CPC, providing financing, technical expertise, and technology transfer.

Technology & Intellectual Property Transfer:

CPC shall not merely construct and finance projects but shall also train African professionals in the technical expertise required to own and sustain these infrastructures independently.

2.2. Strategic Economic Sectors

This agreement prioritizes projects that align with Africa's long-term economic and industrial goals:

Energy Sovereignty: _____

Industrialization: _____.

Sustainability: _____.

Transport & Logistics: _____

2.3. Workforce Development: A Continental Imperative

African professionals will be trained in parallel with project execution, ensuring knowledge transfer at every operational level.

Joint research centers will be established, ensuring that African engineers and scientists lead future developments.

African-based curricula & industrial schools will be set up, solidifying the industrial workforce for generations.

3. Sovereign Project Guarantees & Intra-African Legitimacy

3.1. Legal & Regulatory Compliance

All projects will align with African Union economic integration goals and national regulatory frameworks.

The joint entities created under this agreement will operate as Pan-African industrial hubs, expanding beyond a single-nation model.

3.2. Economic Guarantees: Breaking Neo-Colonial Dependency

CPC guarantees full project execution under the agreed financial model, ensuring the African partner maintains ownership at all phases.

The Beneficiary Government guarantees national investment protection laws, ensuring long-term economic viability.

The Joint Agency model ensures intra-African trade benefits, preventing monopolization by foreign entities.

4. Agreement Validity & Amendments

This Cooperation Agreement is valid for [X] years, ensuring long-term commitment to industrial development.

Amendments must be made in writing and signed by both parties.
