Artist Statement

Through photography, collage, and film, feminine seeks to be seen in all of her entirety.

Divine feminine challenges the cultural boxes of value as it relates to objectification, incompleteness, hyper-sexuality, and the bondage of building identity through a gaze that was never meant for her.

Emily Rose's art critically engages with how femininity is portrayed and consumed in modern culture, confronting the influence of "The Gaze" on women's identities. Through photography, collage, and film, Emily explores the often unseen or commodified aspects of womanhood, reclaiming power and control over how women are viewed. Her work delves into the complexities of feminine beauty, pleasure, obsession, and power, offering a layered, deeply personal narrative that challenges societal expectations while celebrating the fullness of feminine experience.
