Being a graduate from a reputed university, I didn't learn much n so I joined Megatron Animation college. I could see the difference in teaching, professionalism, etc. It's been a month only, and yet I got to know so many things about the animation industry. The faculty is truly amazing. They make your course easier and you'll have fun learning it. Computer are also provided. I personally thank my mentor Dipak Sir who took great care of me and made the software easier for everyone to understand.

Choosing Megatron is the best decision for my career. They are sometime also providing freelancing work for students which is great for the students. Faculty is very much helpful. I am working as a Graphic Designer from 2 years. now learning Motion Graphics. so from my experience this is very good institute with supportive Faculty..:)

Best institute for distance learner specially in covid, I would suggest to join Megatron and develop your skills rather than wasting time at home, which not only help you to recognise your hidden talent but also live freely by providing work from home. Hats off to Megatron staffs for their support and motivation which leads today's generation towards success..

★★★★★ 2 years ago
I had an amazing experience with the Megatron College Of Multimedia Council. Online course "Career Diploma in Multimedia" (CDM)! The instructors are experienced, and their friendly teaching style makes learning enjoyable. The online classes are interactive, with up-to-date course material, practical projects, and regular feedback sessions. The user-friendly platform and doubt-clearing sessions enhance the learning process. Choosing this institute over Arena proved to be a wise decision. It offers a top-notch faculty, interactive classes, and excellent course material, setting the stage for a successful career in animation. 🙏
