OXFORD DOWNS POKER TOURNAMENT LEADERBOARD RULES

1. Earning Points: You can earn tournament leaderboard points by cashing in any of our Jackpot eligible tournaments during the designated period (the first through the last day of each month). To Participate, all players must register for tournaments with an Oxford Downs Player number.

2. Leaderboard Prizes: Prizes are funded through the tournament promotional fund. Results will be posted on the last day of each month, with prizes awarded to the top 5 finishers:

1st Place: \$1,000

2nd Place: \$600

3rd Place: \$350

4th Place: \$250

5th Place: \$100

3. Point Calculation: Oxford Downs Tournament Leaderboard points are calculated using the formula: $\text{LOG}(\text{Prize Pool}) / \text{SQRT}(\text{Relative Rank})$. Relative rank is determined by dividing your place by the total number of entries. Buy-In amounts are not considered in this calculation.

4. Deals (Chops): If a deal is made, players who agree to alter the posted payouts and end the tournament will all tie for the next payout spot. For example, if 5 players chop, all players will tie for 5th place points.

5. No Playing for Points Only: Deals cannot be made with the intention of playing for points only.

6. Standings: Leaderboard point standings will be posted daily.
