SUSTAINABLE AND ECO-FRIENDLY PACKAGING

Sustainable, innovative and environmentally friendly has been **TREECO PAC** guiding principle since the Day we opened for business.

We benefit humanity by unleashing the power of renewable resources, Continuing to build a prosperous World, we look forward to continuing this work to meet the needs for the future.

SUSTAINABLE

The paper or cardboard material used in this product comes from responsible forestry, And suppliers have been audited for evidence of sustainable and ethical practices. This also means that raw materials are updated at the same rate as their consumption. Plantation forests are a good example of a sustainable source of paper.

TREECO PAC only uses paper and board from large and well-known raw material suppliers that we regularly audit.

COMPOSTABLE

The product is biodegradable and compostable, suitable for disposal in commercial facilities, Processing at a commercial composting facility means that the product will be subject to the optimal amount of sunlight, temperature and moisture to breakdown.

Compostable products can be placed in a home compost bin, but the time it takes to decompose depends on what you do with your compost pile.

RECYCLABLE

A product or material is recyclable if it can be collected and remanufactured into a new product. If TREECO PAC product is listed as recyclable, it means that once the food scraps are removed, the product can be easily recycled through the curbside recycling stream.
