Targeted Humans Conference Call

Sunday 8:00 p.m. EST

FreeConferenceCall: 605-475-4779

Access Code: 607080

CALL ID: electricrose222

On our conference call on June 21st, we will discuss what is needed to write a bill in the interests of Targeted Humans.

Bring your ideas to the table. We hope to talk to you then.

You can make a difference in educating America and the world about what Targeted Humans really are. [Make a donation on our website](https://www.TargetedHumans.org). We have much work to do.

Some People May Be Receiving Covid Tattoos With Technology Seen Only Under Infrared (IR) Light

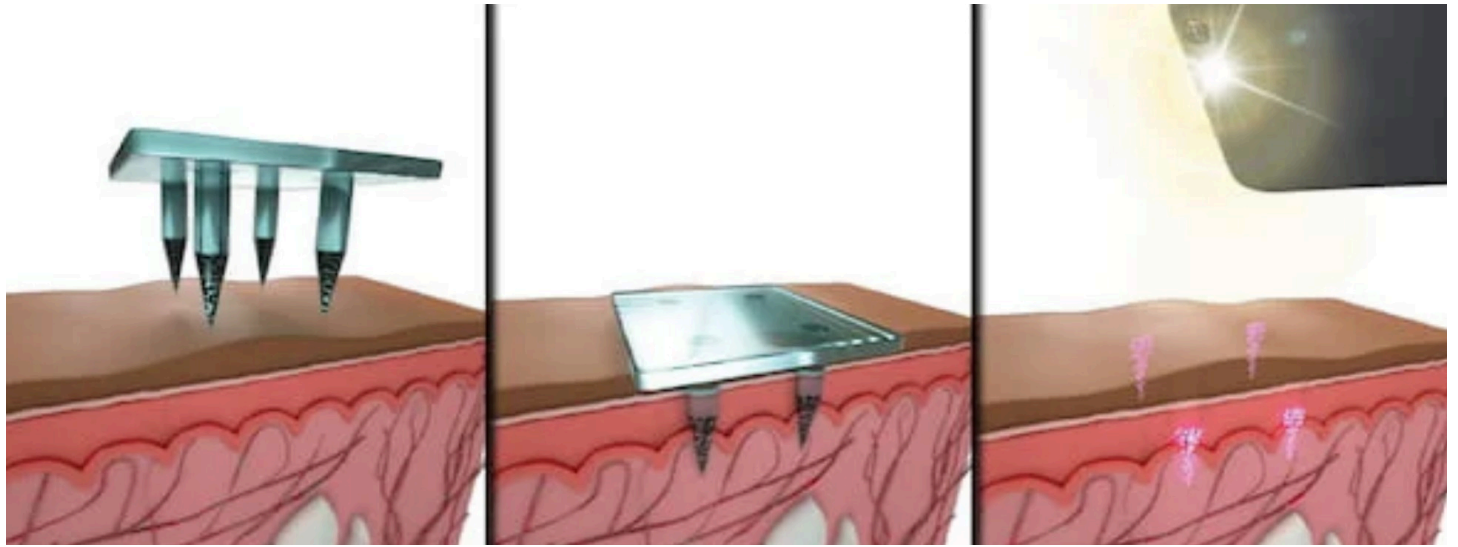

July 26, 2020

CitizensAHT [now TargetedHumans] received this statement in an email: "A guy I know was jailed in Idaho. it was during this time he contracted Covid 19 supposedly. He was never transported to a hospital, yet treated in the jail. The jail treated him with an injection which I find strange. A few months have passed. He recently went camping. He took some selfies with his girlfriend and was shocked by what came out in the photo... What do you suggest? Do you have any thoughts as to what this might be? Thank you, TI Colorado sent Friday July 24,2020."

In this picture sent to us, a copper colored object looks like it is at the center of the figure. We have not seen anything like this in the media. We Google searched the image and found nothing. If there are chips here, it could include all this person's **medical information and arrest record, family, work history**, and may be read remotely. The only other technology we've seen is a woman with glowing dots on her face shown below. <https://www.youtube.com/watch?v=IPnlQWA-fQM> The micro dots on a woman's face don't seem to be the result of microneedles injecting quantum dots, they are too dispersed across the face. The tattoos can be read by a scanner but perhaps this dispersion can also be read some way. They contain personal information regarding the person.

This picture was obviously taken at night so the smart phone would have taken a picture in Infrared Light! If you took the Covid vaccination, you may have some sort of phenomena happening on your skin. Take a picture of yourself with your smart phone in the dark to see if anything appears on your skin.

Perhaps law enforcement is already using some type of vaccine or treatment without consent and injecting tracking technology and contains information about what type of record the person has.

The technology is **dissolvable microneedle patches** combined with an **invisible quantum dot dye**. Developed by engineers at MIT, this experimental platform allows a patient's vaccine history to be stored directly under the skin at the time of inoculation <https://news.rice.edu/news/2019/quantum-dot-tattoos-hold-vaccination-record>

- **Microneedle Patch Delivery:** Instead of a traditional needle, the vaccine is administered using a bandage-like patch containing tiny, sugar-based needles.
- **Quantum Dot Tattoos:** Some of these needles are loaded with the vaccine while others carry microscopic, biocompatible nanocrystals called **quantum dots**.
- **Dispersion and Pattern:** When pressed against the skin, the needles dissolve in about two minutes. The quantum dots disperse into the skin in a specific spatial pattern—similar to a barcode or QR code—that correlates to the type of vaccine administered.
- **Invisible Record:** The dots emit near-infrared light, making them completely invisible to the naked eye but easily scanned using a customized smartphone or a near-infrared camera. They can last up to 5 years.

Targeted systemic delivery (Traveling to specific parts of the body)

If quantum dots are injected into the bloodstream such as in a vaccine (intravenously), their ultra-fine size (typically (1 to 10 nanometers) allows them to easily travel through blood vessels and cross biological barriers.

<https://pmc.ncbi.nlm.nih.gov/articles/PMC12655112/>

- **Targeting Ligands:** To make them go to a specific location (such as a tumor on the face or specific inflammatory cells in the body), the surfaces of the quantum dots can be modified with **antibodies, peptides, or ligands**. These act like a GPS, causing the quantum dots to latch only onto specific cells. <https://pmc.ncbi.nlm.nih.gov/articles/PMC3418929/>
- **Theranostics:** Researchers utilize this "active targeting" in cancer therapies. The quantum dots can transport attached chemotherapy drugs directly to malignant cells. When exposed to external light, they can also trigger toxic reactive oxygen species to selectively destroy cancer cells (a technique

called photodynamic therapy). <https://www.sciencedirect.com/science/article/pii/S2949829525000415>

- **Passive Targeting:** They can also accumulate naturally in diseased tissues —such as tumors—because of the abnormal, "leaky" blood vessels commonly found in those areas (the Enhanced Permeability and Retention or EPR effect) <https://www.jpionline.org/article/15/3/759>

What is the BRFSS?

Ever received a call from 850-615-1724?

<https://www.cdc.gov/brfss/index.html>

The Behavioral Risk Factor Surveillance System (BRFSS) is the nation's premier system of health-related telephone surveys that collect state data about US residents regarding their health-related risk behaviors, chronic health conditions, health-care access, and use of preventive services. Established in 1984, BRFSS collects data in all 50 states as well as the District of Columbia and participating US territories. BRFSS completes more than 400,000 adult interviews each year, making it the largest continuously conducted telephone-based health survey system in the world.

By collecting behavioral health-risk data at the state and local level, BRFSS has become a powerful tool for customizing and planning health promotion activities. BRFSS is a go-to resource for health data scientists, researchers, other federal agencies, national health organizations, and state and local governments. In addition, countries across the globe have sought technical assistance from CDC to develop similar surveillance systems. BRFSS is also a data source for other tools and systems, such as CDC's Population Level Analysis and Community Estimates (PLACES), CDC's Chronic Disease Indicators, and **Healthy People 2030-Agenda 2030**.

**LET'S NOT FORGET THE PRECIOUS
TARGETED TRUTH SAYER DR. KILDE**

**Her favorite words were: "There is no death, we are not alone
in the universe, God is love and love is the answer."**

Rauni-Leena Tellervo Luukanen-Kilde was born on November 15, 1939 and died on February 8, 2015. She was a Finnish physician who wrote and lectured on [parapsychology](#), [ufology](#), and [mind control](#). Rauni was a Targeted Human but never stopped telling the truth she knew even when she was stalked, persecuted, tortured and died after being radiated for four days. She had an indomitable unchangeable spirit and love for her fellow humans.

Luukanen-Kilde was born in [Värtsilä](#). She had to flee with her family in infancy during the Second World War and was raised in [Helsinki](#). She studied medicine at the universities of [Oulu](#) and [Turku](#), graduating in 1967. She was at one point the only medical practitioner at the hospital in [Pelkosenniemi](#), performing dental and veterinary work as well. In March 1975, she became a provincial medical officer in [Rovaniemi](#), Lapland; she became chief medical officer for Lapland.

She knew about brain implants from 1946, she knew about mind control, the power of light to heal, she knew about stalking and directed energy weapons way before we ever did. She was a great soul and deserves recognition for her work.

In 1982, as Rauni-Leena Luukanen, she published *Kuolemaa ei ole (There Is No Death)*. She had been interested in the paranormal since she was a teenager, but the 1985 car accident which led to her retirement was reportedly "significant in her

turn to ufology." She appeared as a featured speaker at UFO conferences, helped organize the first international conference on [extraterrestrials](#) in Finland and authored books about UFOs, [alien abductions](#), [mind control](#) and [conspiracy theories](#). Luukanen-Kilde claimed to have been "rescued" from danger by [extraterrestrials](#), and to have esoteric skills and knowledge as a result of her relationship with them. She said that there was a secret exchange program between humans and aliens that was being deliberately suppressed by "powerful Western governments", particularly the United States. Luukanen-Kilde also said that secret military and intelligence agencies were practising mind control technology on the world population using **cell phones** and supercomputers and that a plot to kill most of the Earth's population using the [swine flu vaccine](#) was being carried out by the [WHO](#), [Henry Kissinger](#) and the [Bilderberg Group](#). [Her article on cybernetic implants as a means of control is widely circulated](#). She appears in the 1999 film [Revelations: The End Times, Volume 2](#).

Luukanen-Kilde married a Norwegian diplomat in 1987 and moved to Norway in 1992. After her husband's death in 1996, Luukanen-Kilde died in February 2015 in [Vaasa](#) after a long illness (radiation poisoning), having returned to Finland shortly before.

COVER HARASSMENT CONFERENCE 2014

RAUNI-LEENA LUUKANEN KILDE

Former acting director of ENVIRONMENTAL Health and Health education of National Institute of Health of Finland in Helsinki and government of Finland representative in World Health Organization in Geneva.

Bright Light on Black Shadows, man is a mind, not a body. Russian general Alexei Savin Stated in Pravda that a human being is an information and electrical system, which can be influenced from outside. First attempts to influence human behavior, attitudes and feelings were attempted already 1874. Today microchips of the size of 2 micro-millimeter are inserted in general population without their consent for their total control. Medical personnel working in the field get different information vaccine content than researchers and "insiders" who follow UN Agenda 21 for depopulation by 85% of the world population with various mean. Never do medical schools teach the differential diagnose of MK, and the fact that this military technology exists and has been used for over half a century in total secrecy. In military mind control is listed as a "nonlethal" weapon but in psychiatry the whole subject is tabu and considered as sign of mental illness to cover up unethical research on humans.

He who controls the minds of men controls the world!

[Keep TargetedHumans operating. Please donate. You can help the truth keep flowing!](#)

Membership is \$30 + \$13 for shipping all the materials we use to unite Targets and educate people on the targeting program.

We'd love for you to visit the website and consider donating monthly or becoming a member. By joining, you'll receive a packet packed with informative goodies, a special membership card, every document we send to Congress and Governors, our 60-page booklet "How Are You Being Targeted," helpful forms for those unexpected moments, and SO MUCH MORE!
