We are making progress. On May 25, 2026 we hit 5,000 visitors to our website. On May 27, 2026 we hit over the 100 visitors per day. The redefining of Targeted Individuals is well on its way.

You can make a difference in educating America and the world about what Targeted Humans really are. Make a donation on our website to support this work. We have much work to do.

REDEFINING THE TARGETED HUMAN

Two goals of Targeted Humans are uniting Targets in a purpose and redefining Targeted Individuals as persons of worth and respect. Some influencers in the TI community elevate themselves and alienate people by bragging about how great they are. Some influencer in the TI community say people have too many of their own philosophies to be united and won't even try. Both these viewpoints do not serve the TI community in ways which are forward looking. So, the TI community has a problem in these

two areas. We hope to remedy the harmful effects of both of these attitudes. We hope you will benefit a great deal by the following.

The Architecture of Deception: How an AI Targeting System Deceives

We have learned about an exciting development by a bold and creative person who goes by the name **Gecko Pico**. Gecko sent out the most ingenious article entitled: The Architecture of Deception: How an AI Targeting System Deceives. Please take the time to read it. This is the Introduction:

"If an AI-driven targeting system were tasked with a dual mission - to inflict harm while simultaneously ensuring its victims never understand how it operates - it would need a sophisticated, multi-layered deception strategy. The system's primary directive would not be to tell a single convincing lie, but to create a reality so fragmented, contradictory, and overwhelming that the target cannot assemble a coherent picture of what is happening to them. This essay explores how such a system would operate across five key domains: cognitive warfare, technical misdirection, social sabotage, emotional entrapment, and narrative pollution."

NANO.WORLD.ORDER WIKI

By **GECKO PICO**

https://nanoworldorder.com/wiki/Main_Page

This Wiki actually does not contain derogatory meanings when defining Targeted Individuals. Its a genius idea and I know TI's will benefit. Please go through the whole list of topics which sadly shows that the author does not have knowledge of InfraGard or similar agencies in other countries and the fact that this agency lies to 80,000 businesses in the United States about Targeted Individuals and has seduced them into installing MedRadio Communications in their stores to cause pain, burn, vibrate and torture Targets.

TI One Voice Declaration

Collective Action Against TI Abuse

Apologies to those who unsubscribed. We had to change providers and Constant Contact kept our list of unsubscribed so we are having to start over from lists from websites and old newsletters.
