Reconnecting the Soul of Electronic Music with Ibiza's Community

Relocating WLA operations to Ibiza: a 21-to-60-day residency curating cultural labs and community-driven activations.

A project supported by

What we do

MGMT & BOOKING

We represent a growing roster of emerging electronic music artists and curate bookings across Europe. Tailored to each event's identity, atmosphere and audience.

our roster provides the soundtrack of the residency, but we'll mix our artists with local talent as well

About us

WLA was born to move away from industry competition and toward human connection.

We foster an ethical ecosystem where success is measured by the health and sustainability of the community we nurture. We aim to reshape the electronic music industry into a healthier, more transparent ecosystem.

our built-in audience: a network of friends and collaborators ready to join or co-create

COMMUNITY

We are creating a global community for artists and creatives. A curated but inclusive space where people connect, share ideas and collaborate. The starting point for new opportunities and multidisciplinary growth.

this is where we'll be most active during the residency, producing the Labs and events at your venue

CULTURAL PROJECTS

We curate projects for culture builders and creative partners. Showcases, workshops and cross-industry formats that give visibility to emerging talent. Co-created with members of our community and shaped around cultural intention.

About the residency

Reconnecting the Soul of Electronic Music with Ibiza's Community

LOGISTICS

Period: May-June 2026 (dates TBD)

Funding: Self-funded through [Culture Moves Europe](#)

Venue Integration: We'll use your venue as a creative hub for content and **4-6 Residency Labs**, designed to run alongside your existing programming.

Why Ibiza

Ibiza is the global stage for clubbing, yet it suffers most from the “superstar” ego and social media burnout. We chose the island because if we can prove a sustainable, human-centric model works here, it can change the industry everywhere.

Our residency

A residency is a medium-term cultural commitment. We'd love to move our agency's operations to your venue to co-create a localised cultural program. Through our **Residency Labs**, we provide the mental, creative, and social tools to rebuild a scene that is authentic and inclusive.

A project supported by Culture Moves Europe - Creative Europe

Our Residency Labs

Our Labs are designed to turn the venue into a living laboratory for a sustainable music scene. These are not just events; they are proprietary formats* developed by WLA to foster authentic connection and community integrity.

*All WLA Residency Labs are proprietary formats and intellectual property of WLA Mgmt.

**These four pillars represent our macro-areas of action. The specific Lab programs remain confidential and will be tailored to the venue's unique identity once the partnership is confirmed.

****01. THE WELLBEING LAB**

A holistic support system specifically designed for electronic music artists and industry professionals. We integrate coaching with somatic and mindfulness practices to address the unique challenges of the scene, from tour burnout to creative pressure. Focus into career longevity and resilient presence.

****02. THE IDENTITY LAB**

Immersive sessions providing the cultural tools to define a unique identity, moving away from mass-market trends and social media mimicry. We celebrate inclusive safe spaces through a variety of practical workshops, from dance and movement classes to sustainable clothing sessions.

****03. THE LISTENING LAB**

Masterclasses on vinyl culture and the art of selection. We teach artists and enthusiasts how to build a unique musical library through intuition, history, and physical digging. The goal is to train the ear, respect the music culture, and find a signature sound that lasts.

****04. THE LEGACY LAB**

Social events and intergenerational talks, creating a space for sharing "tribal knowledge" by connecting local and international industry leaders with the next generation of talent. We ensure that global expertise and local heritage work together to inspire the future of the scene.

Why partner with US

Reconnecting the Soul of
Electronic Music with
Ibiza's Community

WHAT TO EXPECT

Professionalism, a self-sufficient team, high-quality international traffic, and your venue transformed into a cultural landmark.

01. CULTURAL PROGRAMMING

We transform your space into a cultural hub. You get turnkey high-quality workshops and networking events without the cost or stress of curation.

02. TARGETED AUDIENCE

We act as a bridge, bringing our community of artists and creatives directly to your venue.

03. CONTENT PRODUCTION

We produce photo/video assets during our residency that showcase your venue as the epicenter of Ibiza's new underground scene.

04. GLOBAL PRESTIGE

Our residency is supported by Culture Moves Europe. This gives your venue international prestige and the European Union recognition.

Let's co-create the future!

Timeline (TBD)

Invitation Letter (By the end of Feb 2026):
Necessary to unlock EU funding.

Grant Approval (Apr 2026): We handle
all bureaucratic paperwork.

Residency Kick-off (May 2026 TBD): WLA moves in.
We align on a calendar of 2-3 Labs per month.

Let's talk!

We are ready to jump on a brief call to discuss how
to tailor the WLA Labs to your venue's specific
identity and needs.
