Goal of Mountain Mover Ministries, Inc. of Star Valley, Wyoming

That upon completion of the program graduates will be able to function as a successful Christian in society; that biblical principles relating to family relationships, church relationship, community, and employment will be learned through the teachings and life experience opportunities provided through the program.

Structure of the Program

There are two phases to the Mountain Mover Ministries Program.

Phase # 1- 30 Day Challenge.

During the 30 Day Challenge phase the focus will be on helping the student separate from those things that impeded his Christian development and on developing Christian foundational fundamentals. All food, lodging, and transportation will be provided for the duration of the program. Classes, counselling, church attendance, and ministry activities will be required. There are four learning contracts that must be completed to graduate the 30 Day Challenge. If a student does not successfully complete the four learning contracts in 30 days, additional time may be added to his stay so that he can graduate the program.

The 30 Day Challenge phase is tuition based and no personal funds will be generated by the student during participation.

Phase #2- Trainee Challenge.

Graduates of the 30 Day Challenge can apply to participate in the five month Trainee Challenge Program. The Trainee Challenge phase emphasizes continual Christian accountability and discipleship while a student participates in work experience opportunities. All tuition for this phase of the program will be self-generated by the student through his work experience opportunities. A portion of funds generated from the work experience part of the program will be made available to the student upon graduation for transitional expense needs. Assistance with future employment opportunities will also be offered.
