

“Moyer-0.1-Service”

Enacted August 1st, 2025 | This begins the “Moyer-X.X-Service” pricing options

Your website is the sole online presence sometimes, it shouldn't cost so much to simply exist and function online. **GrupoMoyer** will provide ample space for your website to be hosted, accessed, and accessible to others online. This does include one additional website copy in another language, for additional clientele exposure. You'll be easily discoverable by SEO, and formatted to be presentable on every platform. You'll get contact forms, email signups, analytics, and of course updates to your site whenever you want to add more content or freshen it up!

Your website can be started up for as little as \$25 and at most \$300. The “startup fees” allow you not to have to pay again for another 12 months. And those renewal plans are explained below, with discounts.

Startup Fees

\$15–25/hr for scheduled building meetings.

Domain costs (purchases/transfers) if any occurred.

Prepayment for next 12 months of management at \$25.00.

Renewal Fees

Website Hosting	\$25/year	Yearly Hosting Fee
Management	\$25/year	Yearly Management Fee
Domain	~\$15/year (if purchase)	Yearly Variance Cost

Referral Discounts

If a new referred client pays startup fees for their own website, the management fee of your own website is reduced by 50% off (\$12.50) and if additional referral reduces management fee to \$0.00 for a 100% discount.

All other fees remain, such as hosting and domain costs, essentially the website management fee is reduced by your first two referrals. Your referral discount is permanent, even if the referral no longer renews after the initial year. Limit of 2 discounts of 50% to management fee line items.

Examples of Bills for 4 Years

<u>Year</u>	<u>Total</u>	<u>Cost</u>
Year 1	Startup	\$150 (avg starting)
Year 2	1st Renewal	\$50 (Host/Mngt/)
Year 3	Referred +1	\$37.50 (Prev+Referral)
Year 4	3rd Renewal	\$37.50 (Prev+Refferal)

T_{erms} of S_{ervice}

Management Fee Services

Consist of a limit of no more than 5 revision requests a month, also not exceeding combined annual sum. The fee for service also constitutes that GrupoMoyer will reasonably make accommodations for those revision requests. If we find it necessary that the work would take billed out time, the \$15–\$25/hr building meeting fees would be quoted upon the need for those revisions. The placement of GrupoMoyer.com will be present at the footer of the website along with your company information.

Descriptions of Website Building

The building process can be done in person or virtually. The idea is to have clients describe colors, pictures, content, and other features built out. This process can be unique for each client's situation and website needs. The website design mainly will follow a block-n-grid built style on all pages. Image, video, and file storage availability for each website on initial start up discussed.

There are additional monthly costs for business needing any of the following:

<u>Feature</u>	<u>Price</u>
eCommerce – 500 max	\$25/month starting
AI Email Marketing	\$30/month starting
AI Blog Posting	\$10/month (limit of 5)
Subdomain Site	\$50 Subdomain-Website Build + \$5/yr

Limits on Price Increases

We are committed to keeping this entire process as simple and affordable as possible. It's our goal to offer reliable hosting and management without burdening your budget. In the unlikely event that we need to adjust pricing, both the hosting and management fees may increase by no more than 10% per amendment to each service. That said, no price increases will occur at the time of your first renewal.

If you're ever in a situation where affordability becomes a concern, please consider BSSN group services or benefits that may help offset costs.

Payment / Past Due

Forms of payment accepted are Zelle, ACH, Wire, check, Physical Legal Tender (Cash).
Zelle Preferred: 9136090304

Payment is due by the time 365 days have passed from your original startup cost payment. You will get an invoice for the renewed-services you are paying. You'll have 30 past due days to pay, after 60 past due days your site will be reduced priority services. After 120 past due days your website pages will become unavailable, but your homepage will be live still. This is to not cause unnecessary stress with your customers or website users; but also to start discontinuing unpaid services. You're encouraged to pay your renewals, or work out payment plans.
