

Welcome to the Cloud - Free Guest WiFi

The Guest WiFi network is provided on our campuses for use by visitors who do not have an eduroam account.

This is a self-register service provided by BSkyB offering free internet connectivity and is widely available in many public places such as cafes and shops.

To connect simply select the "Guest WiFi" network on your wireless device.

On starting a browser you will be prompted to register for an account with The Cloud or use your existing account if you are already a user of the service.
