Our mission is to:

1. Acknowledge, embrace and celebrate cultural diversity within the property, construction and built environment industry
2. Foster a platform to connect built environment professionals from diverse cultural backgrounds
3. Empower individuals and facilitate pathways to provide equal access for professional growth and success
4. Advocate cultural diversity in senior leadership within the built environment industry
5. Promote awareness and education to embrace cultural diversity and reduce biases

Founder / President

“With over 16 years of experience in the built-environment industry, my move to Australia in 2016 highlighted a significant gap in our field. I observed a lack of platform for professionals from diverse multicultural backgrounds to connect and support one other. This realization served as the inspiration behind establishment of MAPP inc.”
