COMPANY OVERVIEW

In the name of God, the Most Gracious, the Most Merciful .With gratitude in our hearts, and a sense of purpose guiding every step, our journey began in a humble cafeteria in Al Shamkha. By the grace of the Most Gracious and Merciful, what started as a simple setup soon turned into a vision shared by a team of passionate individuals—each with years of experience in the food industry, coming from various parts of the region.

As we worked together, a thought sparked among us: Why not elevate our business into a professionally managed, standard company. That thought became the turning point.

Each team member took it upon themselves to research deeply into the tastes and trends that customers in this area truly desire. We noticed that while popular items like sweets, pasta, burgers, juices, sandwiches, Chinese cuisine, tea, and coffee were in demand—they were scattered across different shops. There was no single place offering them all with the quality and care they deserved.

So, we came together to change that.

We started hiring skilled professionals specialized in these categories. After years of planning, testing, and fine-tuning our menu and concept, we knew it was finally time to launch something special.

Our search for the perfect location led us to Reef Community, near Abu Dhabi's Sheikh Zayed Airport. From the moment we opened our doors, we knew we had made the right decision—not just because of the location, but because of the incredible support and love from our customers.

Today, Canny Candy Refreshments is running successfully, not just as a business, but as a heartfelt journey of dedication, unity, and a commitment to serve food that makes people happy. Maybe that's why our customers keep smiling—because when food is made with care, it speaks for itself.
