

Step-by-Step Guide: How to Buy PindCoin

Step 1: Install MetaMask Wallet

Install the **MetaMask app** on your mobile (Android/iOS) or use the **Chrome extension** on desktop.

Create a new wallet and **safely store your Secret Recovery Phrase**.

Then, **add the BNB Smart Chain (BEP20)** network to your MetaMask.

 <https://metamask.io>

Step 2: Buy BNB (Binance Coin)

Buy **BNB** from exchanges like **Binance.com**, **WazirX**, or **CoinDCX**.

Then, **transfer BNB to your MetaMask wallet address**.

Step 3: Visit Our Website → Click “Buy PindCoin”

Go to our official website and **click the "Buy PindCoin" button**.

This will redirect you to a **PancakeSwap widget** or a direct swap link.

Step 4: Connect Your Wallet

Inside PancakeSwap or the embedded widget, **click "Connect Wallet"**.

Choose **MetaMask** and approve the connection.

Step 5: Add PindCoin Contract Address

To swap, **paste your PindCoin contract address**:

[Your PindCoin Contract Address Here]

It will automatically fetch the PindCoin token. Select it.

Step 6: Swap BNB for PindCoin

Select **BNB** in the top field and **PindCoin** in the bottom field.

Enter the amount you want to purchase.

Set **slippage tolerance to 1–2%** from the settings icon.

Click **“Swap”**, then confirm the transaction in MetaMask.

Step 7: Done!

To make PindCoin visible in your MetaMask wallet:

- Click **“Import Token”**
- Paste the **PindCoin contract address**
- Add the token manually

Pro Tips:

- Always keep a small amount of BNB in your wallet for **gas fees**.
- Use **Google Chrome** browser for best performance.
- Only use the **official PindCoin contract address** (as shown on our website).
