

How to Buy PIND2 (Using USDT)

Simple Step-by-Step Guide for New Users

Step 1: Install MetaMask Wallet

Install MetaMask on your mobile (Android/iOS) or desktop browser.

Visit: <https://metamask.io>

Create a new wallet and safely store your secret recovery phrase.

Add BNB Smart Chain (BEP20) network in MetaMask.

Step 2: Get USDT and BNB

You need USDT to buy PIND2 and a small amount of BNB for gas fees.

Option A: Create a Binance account and buy USDT + BNB.

Option B: If you don't want to create a Binance account, you can borrow USDT and a small

amount of BNB from any trusted friend.

Step 3: Transfer USDT & BNB to MetaMask

Send USDT (BEP20) and BNB (BEP20) to your MetaMask wallet address.

Always double-check the network before sending.

Step 4: Open Official Buy Link

Visit the official PIND2 website (www.pindcoin.com) and click the BUY button.

You will be redirected to PancakeSwap with the USDT /PIND2 pair.

Pair Address: [0x4a4dc0739d191a458252ac0f14ca0c2779214ec0](#)

Step 5: Connect Wallet

Click Connect Wallet on PancakeSwap.

Select MetaMask and approve the connection.

Step 6: Swap USDT to PIND2

Select USDT in the top field and PIND2 in the bottom field.

Enter the amount you want to buy.

Set slippage to 3%.

Click Swap and confirm the transaction in MetaMask.

Step 7: Import PIND2 Token (If Not Visible)

Open MetaMask --> Import Token --> Custom Token.

Select network BNB CHAIN

Paste the official PIND2 contract address:

0xB59a320385a47755dCdEb3cc4463352655Fe8825

Token Symbol: PIND2

Decimals: 18

Important Safety Tips

- 1 Keep some BNB for gas fees.
- 2 Use only the official website (<https://www.pindcoin.com>) and contract address.
- 3 Never share your secret phrase or private key with anyone.
- 4 Double-check token name and network before swapping.

Step-by-Step Buying Guide (Roman Punjabi)
