

How to Draw the Brooklyn Bridge

A Fun Activity from the World of Salz & Peppa

Help Salz & Peppa Draw the Brooklyn Bridge!

Salz and Peppa love exploring Brooklyn. One of their favorite places is the Brooklyn Bridge. Let's learn how to draw it step by step!

Step 1

Draw two tall towers.

Make them look like big rectangles standing next to each other.

These are the bridge towers.

Step 2

Add arches inside the towers.

Draw a curved doorway shape near the bottom of each tower.

Step 3

Draw the road across the bridge.

Connect the towers with a straight line.

Step 4

Add the bridge cables.

From the top of each tower, draw curved lines down to the road.

The lines should look like a rainbow shape.

Step 5

Add vertical lines hanging from the cables.

These hold up the bridge.

Step 6

Now decorate your drawing!

Add:

 the New York skyline

Bonus Challenge

Color your picture!

Ideas:

- Bridge towers → brown or gray
- Sky → blue
- Pizza shop → red and white stripes
- Salz → fluffy white cat, blue eyes
- Peppa → black cat with green eyes

★ Fun Fact

The Brooklyn Bridge opened in 1883 and connects Brooklyn and Manhattan in New York City!
