

KinetiQ Solutions

"Moving Innovation Forward"

9658 Baltimore Ave Suite 300
College Park, Maryland 20740
(410) 227-2609

SUSTAINED EXCELLENCE

Established by retired Lieutenant Colonel Sumesh Sagar, KinetiQ Solutions operates with a fundamental principle: to empower disabled and retired veterans who possess specialized Information Technology skills and experience. The overarching goal is to facilitate their sustained involvement in supporting the nation, allowing them to make a meaningful impact on their fellow soldiers, civilians, and their families.

During his time in the Army, he held various roles in shaping military healthcare. At U.S. Army Medical Command, he helped introduce and implement MHS Genesis, the new state-of-the-art electronic health record for all the Military services. As the innovation leader, he sought and implemented a myriad of IT solutions to advance healthcare in support of the warfighters.

His vision is to recognize the organization's complex challenges impacting the lowest echelons to deliver optimum solutions that custom fit the business requirement. His dedication extends beyond his military service, as he now channels his expertise into KinetiQ Solutions, striving to foster an environment where veterans continue to thrive and contribute to technological advancement. KinetiQ Solutions aims to harness the untapped potential of these veterans, driving innovation forward while honoring their commitment to service.

NAICS CODES

541511 Custom Computer Programming Services
541512 Computer Systems Design Services
