Money Mindset for Kiddos Where They're At....

(ages 6-10)

Should children learn about money management? Of course! Below are some thought-provoking questions to ask your child about money. You'll gain insight into their understanding of basic saving and spending concepts.

- 1. How do you feel when you get your allowance or birthday money?*
- 2. How do you decide what you want to buy? What's important to you when making a choice?*
- 3. Do you feel that saving money for something special is easy or hard? Why?*
- 4. Have you ever spent your money and wished you hadn't? How did that make you feel?*
- 5. Why do you think everyone has different amounts of money?*
- 6. What are some things you would like to buy if you had a lot of money? Why are they important to you?*
