ALEJANDRA ZACARÍAS

FULL STACK DEVELOPER JR.

Full Stack developer with Frontend orientation. I have experience in designing and implementing intuitive interfaces with technologies such as **React**, **TypeScript** and **Tailwind CSS**, as well as backend development with **Express** and **MongoDB**. I have led freelance projects from scratch, collaborating in the whole process: from conceptualization to deployment.

MOST RECENT EXPERIENCES

Frontend Developer at GAIA SH

March 2025 - Actuality [Remote - Spain]

I worked on the development of a custom CRM and secure messaging platform, using React and TypeScript. I was in charge of both the implementation of intuitive interfaces and the integration with APIs. Focused on providing efficient and scalable solutions, with special attention to user experience and code quality.

Freelance Projects - Web Development for Companies and Enterprises

October 2024 - April 2025

I designed and developed websites for touristic transfer, private travel and landscaping companies. I was in charge of visual design, layout with React and Tailwind CSS, contact form integration, basic SEO optimization and hosting deployment. Focused on creating responsive experiences, clear and aligned with the identity of each client.

Landing Page Design and Development

October 2024 - April 2025

Creation of landing pages focused on conversion and user experience. I implemented clean interfaces, mobile-first design, functional forms and optimized structure to capture leads, always respecting the visual identity of each brand.

SKILLS

- React
- TypeScript
- Tailwind CSS
- Responsive Design
- API Integration (REST)
- Version Control (Git/GitHub)
- UI/UX Thinking
- Problem Solving
- Team Collaboration
