Owner	Aaditee Publications
Service sectors	Website design, graphic design, content creation
Hands on skills	Corel Draw, Corel Photo Paint, Incomedia, HTML

I'm an Origami Artist, Educator & Creative Entrepreneur. With about 38 years of hands-on experience in the ancient Japanese art of Origami, I'm a passionate artist and educator dedicated to spreading the joy and benefits of paper folding. What began as a childhood hobby has grown into a lifelong mission; to introduce the magic of Origami to children, educators, and enthusiasts across India.

Taught Origami to thousands of students through workshops, school sessions, and online platforms. I believe Origami is not just art; it's a powerful tool to enhance creativity, concentration, fine motor skills, and emotional well-being, especially in young learners.

In 2025, aiming to reach 10,000 students through Origami-based educational initiatives, combining traditional techniques with innovative, child-friendly approaches. My sessions are known for being fun, engaging, and deeply impactful.

Beyond Origami, I am also a seasoned professional in website design, graphic design and content creation. I run my own business, AADITEE PUBLICATIONS, offering design, marketing, and technical solutions to clients.

I am an ardent lover of Konkan, a cyclist & a travel enthusiast.

Thank you with regards

Mandar Vaidya
