Cardiac & Other life threatening illnesses.

OUR VISION

To prevent severe cardiac & other life threatening illnesses by early diagnosis & treatment so that we can deliver happiness to billions of people.

TO SAVE COUNTLESS LIVES WORLDWIDE

CURRENT GAPS IN MEDICAL FACILITIES AT FACTORIES & MINES

Cardiac Risks & Sudden Fatalities

- Lack of Awareness
- Impact on Workforce Morale
- Insufficient Preventive Measures

High Business Costs And Downtime

- Compensation & Legal Costs
- Production Shutdowns
- Reputation Damage

Lack Of Compliance & Expertise

- Lack of On-Site Healthcare and Compliance Expertise
- Difficulty in obtaining legal permissions and licenses

SOLUTION

NeoMedHSE
Healthcare Services

NeoMedHSE effectively addresses the pressing health concerns within industrial environments, our solution focuses on **Integrated Cardiac Assessment services tailored for mine or factory settings**. By establishing on-site cardiac assessment centers, we leverage advanced diagnostic tools such as **2D Echocardiography, Treadmill Tests (TMT), and comprehensive ECG analyses handled by expert team of medical doctors, cardiologist, paramedical staff and technicians**.

This proactive approach not only identifies existing cardiac conditions but also mitigates future risks, significantly reducing the incidence of sudden cardiac events among employees.

SOLUTION

- **Experts in Bundled services** of Health and Safety with Trainings
- NeoMedHSE has **PAN INDIA** Operations with Efficient Medical professionals and Health Care service providers network all over India
- We have been successfully able to Implement and Cater to varying customer needs for **Quality Medical Health Care** Services

COMPLETE EVALUATION PACKAGE

We provide an end-to-end cardiac assessment for each employee, covering every critical step:

1. Full Health History & **Initial Check-up**.
2. Assessment by a **certified cardiologist** to identify risk factors.
3. **Advanced Diagnostics** – ECG, 2D Echo, and Treadmill (TMT) testing.
4. For positive TMT results, we **arrange coronary angiography** and, if required, **angioplasty**.

**NTPC Premises,
Barkha Gaon,
Hazaribagh, Jharkhand**

**Reliable Diagnostic,
near Post Office Chetak
Circle, Udaipur**

TESTIMONIALS

“

Namaskar everyone! Thank you Hindustan Zinc. I work in SS division of Hindustan Zinc and I underwent medical test by NeoMedHSE. I was tested positive for TMT and doctors found 90% blockage. I was referred to Udaipur Gitanjali Hospital and had an operation. I am fit now and I am healthy now.

”

-- Hindustan Zinc Employee

WHY CHOOSE NeoMedHSE?

- **On-Site Diagnostic Equipment** – We install 2D Echo, Sonography, and TMT machines at factory OHC centres, needing 400 sq ft for a hall or 200 sq ft for two rooms.
- **Time-Efficient Assessments** – Cardiac and ultrasound assessment take 20-30 minutes, completing up to 200 assessments daily. If the same assessment was to be done at hospital it would typically take 1 full working day of the employee.
- **Complete Licensing Support** – NeoMedHSE handles all necessary Govt. licenses like PCPNDT from district authorities for seamless on-site assessment.
- **High-Quality Health Records** – Detailed health reports are delivered in Excel and PPT formats for easy tracking and analysis.
