

Corporate Profile

SMART CONNEX SYSTEMS
Security First....!!

Welcome to Smart Connex Systems

Smart Connex is a fast-growing ELV, ICT & Security solution provider, serving customers with a comprehensive range of Low Current, IT & Security solutions and services.

At Smart Connex, we worked hard to implement certain efficient regulations and policies right from our design stage to implementation of work. This quality is ensured in all the projects we have undertaken and our steady growth is the certificate for our customer satisfaction.

We have the technological capability to offer total solution to its customers with design, supply, installation and commissioning of systems coupled with service and maintenance. The excellence of the products, strong technical support from the manufacturer and dedicated work force has led the company to glowing heights without sacrificing the quality of service.

Our Vision

To be the best in a class by creating long-term strategic relationships with our clients and leveraging our technological acumen and industry expertise to provide innovative, quality, and cost-effective solutions.

Mission

To provide the finest security services and customized innovative solutions through our extensive complement of high-quality products and services, we will enable our clients to run their operations with minimal effort and concern for their safety and security.

Our Offerings

- Video Surveillance system
- Building Management System
- Fire detection and Alarm system
- Fire suppression system
- Structured cabling solution
- Rodent Control
- Water Leak Detection System
- Access control & Time Attendance
- Public Address system
- Intrusion Alarm system
- Perimeter Intrusion Detection system
- Video Door phones
- Building Automation – Residential and Commercial
- Gate Barriers & Bollards
- Tripod Turnstiles & Flap barriers
- Swing & Sliding Gate/Door automation
- Anti-theft EAS system
- People counting system
- Audio-visual solutions
- Lighting control system
- Parking Management system
- Visitor Management system
- Command & Control Systems

Our Products

Integrated Building Management System

An IBMS is a computer-based automated system that monitors and controls various building systems like HVAC, lighting, security, and fire safety, all through a single, unified platform. It aims to optimize building performance, enhance occupant comfort, improve energy efficiency, and reduce operational costs.

Video Surveillance System

Smart Connex designs and installs complete CCTV systems including fully equipped control rooms as well as other security surveillance solutions.

- IP camera
- NVR/NAS
- ANPR/Thermal camera
- Central surveillance

Access Control System

Smart Connex offers Access control systems ranging from standalone device to readers upto complicated networked systems consisting of hundreds of card readers and various types of biometric recognition and identification devices, door controllers and other types of readers.

Fire Alarm System

Smart Connex designs, procures, installs and maintains fire alarm solutions using the most advanced and reliable technologies in the market.

- Conventional system
- Addressable wired and wireless system

Public Address System

Smart Connex provide public addressing solutions advanced integrated technology where a single system is being used for Public address, Voice alarm and background music system.

Intrusion Alarm System

Smart Connex installs reliable and advanced wireless and conventional technologies for the security of homes and offices, integrating them, with electronic detection and automation systems compatible with the solution.

Automatic Boom Barrier

Smart Connex can provide a range of automatic boom barrier systems, parking barriers for residential, commercial and industrial use and markers that could offer most reliable open systems, integrated with ANPR and access control to provide the highest security level possible.

Gate & Door Automation

Smart Connex installs complete Gate automation systems for residential, commercial, and industrial use. Partnered with leading global brands for local market where automatic doors are integrated with access control and motion sensors.

- Sliding gate & door automation
- Swing gate & door automation

Anti-Theft EAS System

Smart Connex provide a broad range of retail store anti-theft devices. Our solution consists of a full line of both RF & AM systems. Integrated with people counting, retail analytics suite, shopper journey, shopping Centre solutions.

Entrance Control System

Smart Connex designs and installs pedestrian entrance control system vital security for businesses buildings.

- Tripod Turnstile & full height Turnstile
- Flap barriers
- Revolving doors & disabled access doors
- Swing barriers

Perimeter Security System

Smart Connex designs and installs perimeter security the most frequently used in high security surroundings. Partnered with global brands for solutions using fiber optic sensing system and wireless RFID perimeter system.

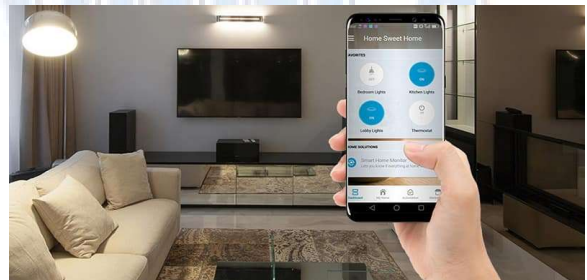

Guard Patrolling System

Smart Connex offers guard patrolling system providing an efficient and effective management of your security guards patrolling activities. Guard tour system allows high output from staff, also improves performance, and provides reliable data on patrolling grounds.

FAN/Lighting Control System

Smart Connex designs and installs intelligent network-based fan/lighting control solution that incorporates communication between various system inputs and outputs related to Fan & lighting control with the use of one or more central computing devices.

Structured Cabling Solutions

Smart Connex undertake to design, install voice and data cabling solutions as per EIA TIA standards using a combination of coaxial, cat-5e, cat-6, and cat-6 a copper and indoor/outdoor fiber cables.

Parking Management System

Smart Connex provide a complete, end-to-end solution for parking management needs. Top-quality & cost-effective parking solutions with latest & state of the art hardware and stable & flexible software.

- Parking Guidance & Parking Information system

Home Automation
