## 2024

By choosing to work with us, you join a team that prioritizes collaboration and adaptability. We listen carefully to your challenges and focus on designing strategies that drive your success. At CEGENA, we are ready to help you achieve your goals with confidence and efficiency.

# HI THERE!

We take pride in being your partner in the development of architecture and engineering projects. Although we are a recent company, our team has solid experience and in-depth knowledge in various disciplines, allowing us to offer a comprehensive and tailored approach to your needs.

Our passion for innovation and excellence is reflected in every project we undertake. We believe in the importance of building trusting relationships with our clients, and we are committed to providing you with exceptional service from the very first contact.

Thank you for considering working with us. We look forward to creating something extraordinary together!

# ABOUT COMPANY

---

We are a consulting firm specialized in projects related to architecture, civil engineering, mechanical engineering, electrical engineering, and fire protection systems. We combine experience and advanced technology to offer innovative solutions in the industrial, commercial, and residential sectors. With a committed team of professionals, we guarantee excellence from the initial concept to the final execution, transforming visions into reality.

We have a team of highly skilled professionals. Our client-centered approach allows us to understand and anticipate their needs, delivering results that exceed expectations. We are distinguished by our commitment to quality and safety, prioritizing communication and transparency throughout the entire process.

---

# WELCOME

We are pleased to have you here. In our consulting firm, we are passionate about turning ideas into concrete projects. We believe that the key to success lies in collaboration and creativity. Each of our experts brings a fresh perspective and innovative approach, allowing us to offer solutions tailored to your needs.

Our commitment is to ensure a smooth and efficient process, focused on excellence and quality at every stage of development. We are here to guide and inspire you, ensuring that each step of the way is productive and aligned with your objectives.

We are ready to work together and take your projects to the next level.

# OUR VISION

---

Our vision is to become a global leader in engineering solutions, recognized for our excellence, innovation, and adaptability. We aim to continue expanding our expertise and partnerships, delivering projects that set new standards in design and functionality. We hope that, in the future, our skills and experience will contribute to the reconstruction and development of our nation. We strive to be the trusted partner for those looking to build a better future.

# OUR MISSION

---

Our mission is to provide innovative, reliable, and high-quality engineering solutions across multiple disciplines. We are committed to exceeding client expectations by leveraging cutting-edge technology, fostering collaboration, and maintaining a strong focus on precision and efficiency. Our goal is to deliver sustainable and efficient projects that contribute to the growth and success of our clients and their industries.

# OUR SERVICES

---

## MECHANICAL ENGINEERING

We offer a wide range of mechanical engineering services, including stress and deformation analysis, advanced thermal and fluid simulation, as well as vibration and fatigue studies. Our services encompass the design of modern and efficient HVAC systems, the design of storage tanks, and the development of piping systems and industrial equipment. With a focus on innovation and precision, we ensure solutions that meet the highest standards of quality and performance.

## ELECTRICAL ENGINEERING

We offer comprehensive electrical engineering services that include consulting and auditing, as well as energy quality studies and electrical audits with improvement recommendations. Our approach encompasses the design and implementation of relay protection systems, the control of electrical substations, and the oversight of renewable energy systems. Additionally, we specialize in the design, execution, and maintenance of electrical installations for residential, commercial, and industrial projects, ensuring efficiency and safety in every endeavor.

# OUR SERVICES

---

## ARCHITECTURE AND CIVIL ENGINEERING

We offer comprehensive services in project management for architecture and civil engineering, including precise topographic surveys, detailed architectural assessments, and building conservation analysis. Our services encompass innovative design for residential and commercial buildings, calculations and design of foundations for buildings and storage tanks, as well as optimized drainage and sewage systems. We also specialize in interior design that combines functionality and style, as well as the design of public spaces, ensuring aesthetic and efficient solutions.

## FIRE PROTECTION SYSTEMS

In our company, we offer high-quality fire protection system solutions, collaborating with expert partners and backed by Viking, a world leader in the field. Our services include customized design and planning, professional installation, 24/7 monitoring, as well as maintenance and technical support, ensuring the protection that each project deserves.

# COLLABORATIONS AND **OPERATIONAL EFFICIENCY**

## **STRATEGIC PARTNERSHIPS**

CEGENA prides itself on its strategic partnerships, particularly in fire protection, where we collaborate with Viking-supported companies to provide the most reliable and advanced fire safety systems in the region. These partnerships allow us to enhance our service offering and ensure that we are at the forefront of technological innovation and safety.

## **OUR CLIENTS**

We serve a broad range of industries, including manufacturing, commercial real estate, and public infrastructure. Our clients rely on us for innovative engineering solutions that are both cost-effective and compliant with the latest industry standards.

## **TECHNOLOGY & AUTOMATION**

We understand the importance of technology in optimizing engineering processes. Our in-house developed application automates project management, proposals, invoices, and financial supervision, allowing us to operate more efficiently and deliver results faster.

# WHY CHOOSE US?

Choosing CEGENA means opting for an innovative approach to engineering that goes beyond the conventional. We excel in our ability to understand the unique needs of each client and provide tailored solutions that truly make a difference.

Our strong expertise in mechanical, electrical, civil, architectural, and fire protection systems allows us to tackle projects comprehensively, ensuring that all aspects are interconnected and optimized for success.

What sets us apart is our dedication to excellence. We don't just meet industry standards; we exceed them, always seeking new ways to innovate and improve. Our philosophy is based on active collaboration, where your vision becomes our mission.

Furthermore, we value transparency and open communication, ensuring you are informed at every stage of the project. By choosing CEGENA, you join a community that prioritizes quality and commitment, ready to turn your projects into tangible achievements.

# GET IN TOUCH

Want to know more about what we offer? We're here to help! If you have questions or would like more information, don't hesitate to reach out to us. We invite you to explore more about our services and discover how CEGENA can meet your needs. You can also follow us on our social media to stay connected and be part of our community. Your feedback is valuable, and our team is ready to assist you!
