Code S

PROFESSIONAL CERTIFICATION

Professional AI Manager

BEGÜM YALCINER

has demonstrated an advanced mastery of AI leadership, strategy, and implementation, encompassing cutting-edge methodologies in artificial intelligence governance, ethical AI deployment, and enterprise-level AI transformation. This individual has exhibited a profound understanding of AI-driven business models, automation strategies, and data-driven decision-making frameworks. Furthermore, this expert has consistently applied advanced AI management principles, risk assessment models, and industry best practices to drive innovation, optimize operational efficiency, and lead organizations through AI-powered digital transformation.

In recognition of this exceptional achievement, the Code S Academy is pleased to award this certification.
