Healthiest way to **Fry, Bake, Grill, Roast & Reheat**

Why you need a Philips Airfryer?

Rapid Air Technology

Rapid Air Technology, with its unique “Starfish” design, swirls hot air to create delicious foods that are crispy on the outside and tender on the inside, with little to no added oil.

Fry, Bake, Grill, Roast & Reheat

The new Philips Essential Airfryer opens up a world of possibilities: fry, bake, grill, roast and even reheat! Cook your food to perfection every time, no matter what you choose to make.

Energy Efficient

Philips Airfryers work more efficiently to save energy by cooking delicious meals with up to 70% less energy than a traditional oven.

Perfect companion for the love of baking

Up to 10%* higher nutrient retention

Up to 2x* crisper cookies and uniformly baked cakes

Opti temp technology for even cooking

One touch 10 pre set menu

Digital mode

*Conditions apply. Based on internal testing standards, certified by 3rd party certification body, tested by organoleptic method, visual/sensory examination & food energy methods of analysis & conversion factors. All testing results are based in comparison to conventional methods.

Home-made happiness with the perfection of **Philips OTG**!

Philips OTG is enabled with 10 customized one-touch preset menus & programmed with Opti-temp technology for healthy & joyful cooking.

Opti Temp technology

Helps in even distribution of heat in the chamber resulting in uniform browning of cakes & breads. Also, breaks down starch uniformly while giving delightful taste and flavor

One touch 10 pre-set menu

With the pre-set menu option, all you need to do is to select the recipe of your choice and Philips OTG will automatically control the time and temperature for you.

Healthy cooking with perfect results

Philips OTG allows you to bake and grill foods which are healthier than conventionally fried foods as it uses very little or no oil during cooking, so making food Heart-Healthy!

Powerful, yet quiet

Removes 99.97%* air pollutants in just 6 minutes**

99.97%

99.97% Filtration as small
as 0.003 microns

Scans pollutants
1000x per second

Low Power
consumption

*Source  EUROMONITOR INTERNATIONAL

*Source: Euromonitor International Limited, Consumer Appliances 2022 edition, per air purifiers category definition, retail volume sales in units, 2021 data.

*Removes 99.97% of ultrafine particles as small as 0.003um, tested to DIN71460-1 and delivers [CADR] of clean air per minute. IUTA 3nm test report (DIN71460), GB/T18801:2015 Test report.

**From the air that passed through the filter. It is a theoretical time for one-time cleaning calculated by dividing the room size of 48m³ by CADR xxx m³/h (assuming the room is 20m² in floor area and 2.4 m in height).

Breathe Healthy with Philips Air Purifiers

Why you need Philips Air Purifiers?

Superior Performance:

99.97% Filtration as small as 0.003 microns

Intelligent Purification:

Scans pollutants 1000x per second and continually monitors your indoor air for harmful impurities

Convenience:

Your connected Philips Air device provides a smart experience with ease of control at your fingertips

Philips air purifiers removes

HINI virus

Bacteria

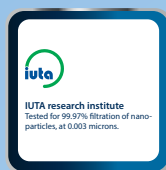

Pollen, Allergens
& Dust Mites

Ultrafine particles down
to 0.003 microns

Our Certifications & Claims

Natural filtration with NO harmful chemicals and NO Ozone³ released
