WHO WE ARE

TRYMED MEDICAL SOLUTION is a tech and process based platform to make health care affordable, accessible and accountable.

It is an ambitious dream to take health care to everybody, penetrating in every corner of the country. TRYMED aims to provide comprehensive primary and secondary health care, using a rational, technology-based standardized platform. TRYMED is a social venture that seeks to bring state of the art health care to the undeserved and under served parts of India.

Vision

Our Business is to provide cost effective Radiology products and Maintenance Services to the Health care Industry.

Is to be the industry leader in this field and meet customer requirements all the time at par with global standards.

Mission

Our Mission is highest service quality at the lowest Cost, to meet global standards by using our highly experienced globally recognized team. Our trained engineers and technicians follow a defined process to meet quality servicing standards on-site and/or in our own repair facilities.

Quality Policy

'Our Quality Policy is defined by strong and effective management principles and behaviors, striving for 'excellence' by providing customized solutions, products & services, that best satisfies our customers and continuously improve quality, develop staff competences, reliability & service with the help of an effective Quality Management System, encompassing all statutory, health, safety & environment requirements at our work place and customer place'.

TRYMED MEDICAL SOLUTIONS PVT.

Philips GEMINI TF Big-Bore PET-CT

System overview	
PET platform	Astonish TF
CT platform	Brilliance CT Big Bore
Patient port	85 cm for PET and CT
Gantry cooling	Air-cooled
Attenuation correction	CT
Patient handling system	
Maximum patient weight	227 kg (500 lb)
Vertical travel	47.1 cm
Patient scan range	190 cm
Horizontal speed	185 mm/s
Minimum table height	55.9 cm
AAPM TG-66 positional accuracy	Yes
PET detector design	
Detector design	PIXELAR
Number of crystals	28,336
Crystal size	4 x 4 x 22 mm
Crystal material	LYSO
Number of detector rings	44
Hygroscopic	No
Number of PMTs	420
Ring diameter	90 cm
Transaxial FOV	67.6 cm
Axial FOV	18 cm
Coincidence window size	3.8 ns ¹
Lower level discriminator	460 keV

Refurbished all MRI Machines available now

0.2 Tesla TO 3 Tesla

All open magnet MRI machine (0.2T/0.3T)

supercon magnet MRI machine 1.5T TO 3T

all series in stock

REFURBISHED PHILIPS,GE & SIEMENS CATH LAB / MOBILE CATH LAB
