# About Us.

Founded in 2017, ALR Export began with a simple vision—to connect India’s agricultural richness with the global marketplace. From humble beginnings in Chennai, we have grown into a trusted merchant trader and exporter of premium spices, herbs, food grains, and eco-conscious goods.

Our strength lies in direct sourcing from farmers and cooperatives across Several Indian states like Kerala, Tamil Nadu, Andhra Pradesh, and Karnataka—ensuring transparency from crop to container. What sets us apart is our commitment to quality, trust, and sustainability. Today, ALR Export serves clients in over 10 countries, offering everything from bold green cardamom and turmeric to biodegradable dinnerware and customized packaging.

We don’t just deliver goods—we deliver the essence of India, with every shipment tailored to enrich lives and build long-term partnerships across continents.

We believe that every grain, every spice, and every package tells a story of dedication—from the Indian soil to international homes and kitchens. ALR Export is not just a company; it is a mission to deliver India’s natural bounty to the world.
