Billing:

Clients will be billed at the **end** of each month, besides March. The bill for March will be collected prior to the start of services, for scheduling security. The monthly rate will always remain consistent unless otherwise communicated, taxes are incorporated into the price.

Mulching is quoted and billed separate. We offer a 10% discount for *Full Maintenance Package* clients and scheduling priority. *Full Maintenance Package* clients do not have to pay a deposit to schedule mulching services, as the first bill for the month of March serves as the deposit.

A pre-paid envelope with a printed invoice will be provided in a door hanger at the time of billing. With each bill, we will ask for feedback regarding the services. We will ensure full satisfaction at the end of each month. Check or cash only, online payments are not accepted. Our goal is to making billing simple, affordable, and transparent.

Scheduling:

Clients will be provided with a detailed schedule for each service. Chemical lawn applications are repeated every 5-6 weeks, weather permitting. For mowing, mulching, and other maintenance services, the clients will be provided with a date and time window for when the service will be scheduled. The client will be notified of any schedule changes and weather delays prior to the scheduled service window.

Satisfaction and Guarantees:

We ensure every client is fully satisfied with both landscape maintenance and chemical lawn care services. If, for any reason, a client is not fully satisfied with a service, we will take all measures to ensure the issue is resolved.

Frequently Asked Questions:

What are the benefits of this program?

Affordability through discounted rates and combined services, a highly-maintained landscape that increases home value and curb appeal, and a worry-free system that ensures the client's landscape is maintained without the constant stress of keeping an eye on the company and weekends burdened with yard work.

What if my lawn doesn't need mowing during dry or hot summer weeks?

This package accounts for weeks your lawn may not need mowing and any other factors throughout the season. We average out the rates through the 9 month span to ensure constant and affordable billing; however, we do maintain weekly visits even if your lawn may not need mowing (weather permitting) to ensure all other aspects of your landscape are maintained. We do recommend lawns remain irrigated through dry periods for a healthy lawn and a fully-maximized landscape.
